There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. The World Rebuilt

An engaging introduction to wine that concentrates on the reader as much as the wine, pointing out the most common pitfalls as it proceeds step-by-step through the essential skills everyone needs to have in order to select, serve and serve wine successfully. Primary emphasis is given to teaching the reader how to identify the taste of different wines according to grape variety, climatic conditions and wine making style, how to select, serve and store wines and how to match them with various foods and occasions. Through a series of ten engaging conversations, the author coaches the reader through the steps needed to become a consummate wine consumer, concentrating on common stumbling blocks, pitfalls and sources of confusion that aren't covered in other introductory wine books. Instead of presenting a curriculum in a categorical fashion, this fast-paced, witty and literate book shows why trusting your own instincts is more important than studying diagrams of the tongue, pouring over aroma wheels or memorizing the minute details of all the leading estates. It explains how and why labels, ratings and reviews can be misleading, how to see through various marketing ploys and what the most persistent misconceptions are about serving and storing wine. Readers learn how to read between reviewer's lines, how to make excellent pairings with little fuss and how to converse with sommeliers and retailers in a way that tells

whether they are trying to help or giving them the run around. Without giving you any tables, charts or listings of regions and producers, or requiring you to memorize a glossary of definitions before you can understand what the author is saying, this book communicates all the essential skills you need to fall in love with wine and become a very savvy consumer. Filled with unique insights and down-to-earth, practical wine advice, this book lets the reader understand what the others are really trying to say.

Using literature, philosophy, and Scripture, Keller and the group explore the truth of Christianity. This study will help small groups and individuals dig deeper into the objections of the Christian faith and to learn about both sides of the issues. Sessions include: Isn't the Bible a Myth? Maths the Basic Skills Number

From the Preface. THE FREE RELIGIOUS MOVEMENT toward World-religion and World-brotherhood gave birth to this book in the form of Addresses delivered in London. The original intention was to set forth the principles and aims of the Movement. But as the Movement is really a cosmic one, radiating from the facts of universal religion and brotherhood, it concerns itself with the peaceful reconstruction of society, and the rebuilding of the war-shattered world. Under many different names, the Free Religious Movement flourishes in every part of the

civilised globe. It is the Modernist Movement in its most comprehensive and thorough-going form. It has its source in that desire for unity which pervades the modern world. It is a reasoned effort to express and encourage that sweep towards Universalism in religion and politics and social ethics which is the most powerful and hopeful impulse of our time. It takes the world for its parish, and mankind as its concern. It seeks to relate human beings to one another and to their universe by principles which are rational, scientific, ethical, and international. The Movement is essentially religious; but it is not a sect or a church; for it operates in all sects and churches, yet outside and independently of them all. It substitutes the humanist for the dogmatic, ethics for creeds, and the collective service of mankind for sacraments. It regards religion as spiritual enthusiasm directing itself towards reform of abuses, just social order, free economic conditions, and pacific international arrangements. All forms of religion spring from those universal desires for beauty, goodness and truth which reveal themselves in man's growing knowledge of his universe and his own aspiring moral nature, and which constitute the sure warrant for a society of World-brotherhood. The human soul is a unity, and the racial solidarity of man follows. Universalism is the final goal of human effort. The Movement bases itself on humanism rather than ecclesiasticism. Its root is deep in the spiritual oneness of humanity, and its growth is towards the flower and fruit of international unity. Its faith is in the divinity inherent in human nature; it expects to find goodness and truth in the immortal books of all ages and races; and it regards with reverence all those who in every nation and time have laboured

and suffered and lived and died for humanity. In the belief that ample wisdom and virtue dwell within the nature of man himself, it moves forward to the accomplishment of the successive tasks of mankind in the strength of those truths which have been approved by experience, discovered by science, and tested by reason. The Movement is a movement towards freedom. The goal of human unity can be reached only in the degree in which men and women learn to think independently, fearlessly and rationally; in proportion as mind and conscience become liberated from servile submission to authority and tradition. It assumes the right of everyone to think and speak his or her own thoughts; and expects the greatest progress to follow from entire intellectual liberty and perfect freedom of judgment. The Free Religious Movement, finally, is an insistent and urgent force in human affairs. As becomes a worldwide consciousness and a world-embracing purpose, it takes the widest survey of those questions which agitate the minds and those interests which engage the activities of men and women in every land and among every people. Nothing that is human is alien to it. Acknowledging the common universal religion embedded within every one of the historic and dogmatic and mythical and sectarian forms of religion, yet recognising the same common universal religion in groups and combinations and movements beyond the bounds of all the organised faiths of the world.

THE BATTLE FOR ROOM 314 In a fit of idealism, Ed Boland left a twenty-year career as a non-profit executive to teach in a tough New York City public high school. But his hopes quickly collided headlong with the appalling reality of his students' lives and a hobbled education system unable to help them: Freddy runs a drug ring for his incarcerated brother; Nee-cole is homeschooled on the subway by her brilliant homeless mother; and Byron's Ivy League dream is dashed because he is undocumented. In the end, Boland isn't hoisted on his students' shoulders and no one passes AP anything. This is no urban fairy tale of at-risk kids saved by a Hollywood hero, but a searing indictment of schools that claim to be progressive but still fail their students. Told with compassion, humor, and a keen eye, Boland's story is sure to ignite debate about the future of American education and attempts

to reform it.
