For the millions of people who do crosswords, the person behind the puzzle is always something of a mystery. What puzzler wouldn't want to know how a constructor thinks when putting together a puzzle? Or the secret rules that guide the selections of clues and answers? Or how to outsmart the constructor by understanding his mindset? A few tips about how to improve solving skills wouldn't hurt, either. Putting it all together in an accessible and witty "guide to life in the grid" is just what everybody wants and needs. CRUCIVERBALISM will help people become better solvers and have more fun doing crosswords. It will also pull back the curtain on puzzle-making itself, outlining the history of crosswords, showing how they have evolved over the past century, and how rules and the mindsets of puzzle editors have changed over time. It will pass along the guidelines the author provides to his stable of puzzle constructors, and tidbits such as the "100 essential words" for the pursuit of crossword happiness. Finally, it will recount the decade-long battle between Old Guard and New Wave constructors, bringing in a cast of colorful characters living in a world of words. The book will be a combination of crossword self-help, wisdom, trivia and stories that will fascinate today's millions of avid puzzlers.

As contemporary Tambú music and dance evolved on the Caribbean island of Curaçao, it intertwined sacred and secular, private and public cultural practices, and many traditions from Africa and the New World. As she explores the formal contours of Tambú, Nanette de Jong discovers its variegated history and uncovers its multiple and even contradictory origins. De Jong recounts the personal stories and experiences of Afro-Curaçaoans as they perform Tambu—some who complain of its violence and low-class attraction and others who champion Tambú as a powerful tool of collective memory as well as a way to imagine the future.

Thomas Keneally's literary achievements have been inspired by some of history's most intriguing events and characters, but in a rare reversal of time his brilliantly imagined new novel takes us into a near future that uncannily is all too familiar. In a detention camp where he is neither granted asylum nor readied to be sent back to his native land, a detainee bides his time. He insists on being called Alan Sheriff, a westernization of his given name; he was born in a country that had once been a friend to the United States but is now its enemy. Little else is known about Sheriff until a writer comes to interview him. Sheriff decides that the time is right to tell his visitor his story and embarks on the unraveling of events that have led to his current state with extraordinary detail—the basis of which forms this novel within a novel. Sheriff is a celebrated novelist in a country in which its brutal leader orders Sheriff to ghostwrite a work of fiction: an uneasy combination of invention, autobiography, and polemic—the very publication of which would overturn Western sanctions and shame the United States. The deadline is impossible, but the government enforcers guard his house and stalk his every move. It is not long before Sheriff becomes the tyrant's caged canary, as he races against the deadline that threatens to cost him everything and everyone he holds dear. In a work reminiscent of the classic Fahrenheit 451, Thomas Keneally has written a dazzling story of a man caught between the demands of his government and his impulse to run for his life. Provocative and possibly prophetic, *The Tyrant's Novel* is a literary achievement inspired by recent history's most intriguing events and characters. Here, Keneally once more combines, as he did in *Schindler's List*, his fictional talent with his engagement in world politics.

When Robert B. Parker passed in early 2010, the world lost two great men: Parker himself, iconic American crime writer whose books have sold more than 6 million copies worldwide, and his best-known creation, Spenser. Parker's Spenser series not only influenced the work of countless of today's writers, but is also credited with reviving and forever changing the genre. In Pursuit of Spenser offers a look at Parker and to Spenser through the eyes of the writers he influenced. Editor Otto Penzler-- proprietor of one of the oldest and largest mystery specialist bookstores in the country, New York's The Mysterious Bookshop, and renowned mystery fiction editor whose credits include series editor for the Best American Crime Writing and Best American Mystery Stories, among many others (and about whom Parker himself once wrote, "Otto Penzler knows more about crime fiction than most people know about anything")-- collects some of today's bestselling mystery authors to discuss Parker, his characters, the series, and their impact on the world. From Hawk to Susan Silverman to Jesse Stone and Sunny Randall, from the series' Boston milieu to Parker's own take on his character, In Pursuit of Spenser pays tribute to Spenser, and Parker, with affection, humor, and a deep appreciation for what both have left behind.

## **Standardized Exercises in United States History: Colonial Period**

In 1888, Samuel F. Cody, a twenty-one-year-old horse wrangler, met Maud Lee, a sixteen-year-old aspiring circus performer,

while touring with the Wild West show cast of Adam Forepaugh's Circus. A quick rapport developed between the girl from Norristown, Pennsylvania, and the cowboy who dazzled audiences with his good looks and fancy pistol shooting. *A Pair of Shootists* is the exuberant and sometimes heartbreaking story of the elusive S. F. Cody and his first wife, Maud Lee. Recounting their many dramatic exploits, this biography also overturns the frequently romanticized view of Wild West shows. Living the erratic lives of touring performers, S. F. Cody — who changed his name to capitalize on his resemblance to William F. "Buffalo Bill" Cody — and Maud Lee first appeared together in vaudeville halls and dime museums. Setbacks in the United States made Cody and Lee eager to try their luck abroad, so they traveled to Great Britain, where they played music halls and acted in burlesques on roller-skates and in extravagant arena exhibitions. When the two performers eventually parted ways, author Jerry Kuntz masterfully splits their stories into two. From there, he follows their individual ups and downs, including Cody's soaring career in pioneer aeronautics and Lee's decline into mental illness and addiction. In an ironic twist, Maud's professional life ended amidst a vast misunderstanding that brought her into conflict with the woman she had been emulating her entire career: Annie Oakley. While other biographies focus mainly on Cody's contribution to aviation, Kuntz uses sources previously unavailable to scholars to paint a more complete picture of Cody's early years and to recover the forgotten — and ultimately tragic — story of Maud Lee.

## **A Pair of Shootists**

At eighteen, Raelynn Pierre has her life all figured out. When her eccentric grandfather sends for her to visit him, she takes the opportunity to meet the family she has never met. But the journey takes her to a stranger on the train who needs her blood to heal and takes her heart as well. Rightfully frightened, she runs away to her grandfather's castle where she finds that she is not at all welcomed but is unable to leave. The only thing keeping her safe is a mysterious werewolf who has appointed himself her protector. "Do you trust all the strangers you meet so easily?" He whispered against my ear as my blouse fell onto the floor. "No," I shivered and felt his hand fisting in my hair to pull my neck further to the side. His teeth raked down my neck and he bit down hard, breaking the soft skin on my neck with his fangs. ~~~~~ Excerpt ~~~~~ I reached for my notebook and stared at my hand in confusion. There were red stains all over it. I turned my palms over, finding no cuts anywhere, then turned back to the man. Maybe he really was an undercover agent. I turned fearful eyes to the door, my breath held as I waited for men in black suits and guns to charge in. A minute passed. Then another. I was being ridiculous. Maybe this man was really a woman and he-she was just on her period! My gaze caught the strong jaw and perfectly masculine features and I shook my head. Of course not. No woman could be this good looking. And I felt his body when he fainted on me earlier. He was definitely male. He was injured. I should go get help. Tentatively, my fingers reached for him again, my heart thumping against my chest so loudly that I was worried I would wake him up by the sound of it. I kneeled beside him and examined his black suit. It was wet earlier and I assumed it was just water. I unbuttoned his shirt and pulled it open. I gasped. The white tuxedo shirt underneath was stained with blood. I watched with a rather sick sense of fascination as the whites started making way for more red and then pulled myself together when I realized that was because he was still bleeding. He was going to die here and it was going to be my fault. "I'm going to go get help," I said to

the unconscious man, standing up with the intent to run to the train conductor so he could stop at the nearest station and get us help. His hands lurched forward suddenly, pulling me back. "Don't." He warned darkly, his grip on my wrist so tight I was certain he was leaving bruises. His breathes came in slow, heavy pants as he clutched a hand to his stomach. "You're injured. Maybe there's a doctor a board," I said, panic seizing my heart. I tried to pull free, but his grip only tightened more. Even suffering as he was, he could still chuckle. "Doctors can't help me now." I stared at him. Was he dying? Did he come here to die? "Tell me how to help," I said. His eyes opened then, finding me instantly and I found myself rooted to the spot, unable to move, to even breathe. "You want to help?" He grinned. It should be illegal for a man bleeding out to look so positively seductive. "Yes," I said. "I want to help." He stood up then and walked towards me. There was no hesitation as he unbuttoned the bloody shirt he was wearing and pulled it off his body. My eyes widened at the sight of the gashing wound on his stomach. I wanted to look away, discomfort gripping my belly at the sight but my body had other ideas. I reached for the wound in his stomach and wondered if I could close it together if I pressed hard enough. His hand gripped my wrist, stopping me midway and he pressed our hands to my heart, feeling my rapid, panicked thumping beneath his fingertips. "Are you afraid?" he asked.

## **Virtualization: A Manager's Guide**

This engagingly written, jargon-free challenge to the misguided and dangerous global obsession with cultural difference critiques the popular notion that world affairs are determined by civilizations with immutable and conflicting cultures. Culture is too often understood as a straightjacket of values that make people act in a certain way. A more accurate and constructive approach is to see culture as a changing system of meaning, which individuals deploy selectively to make sense of the world.

When Abraham Lincoln delivered the Gettysburg Address in 1863, he had broader aims than simply rallying a war-weary nation. Lincoln realized that the Civil War had taken on a wider significance—that all of Europe and Latin America was watching to see whether the United States, a beleaguered model of democracy, would indeed “perish from the earth.” In *The Cause of All Nations*, distinguished historian Don H. Doyle explains that the Civil War was viewed abroad as part of a much larger struggle for democracy that spanned the Atlantic Ocean, and had begun with the American and French Revolutions. While battles raged at Bull Run, Antietam, and Gettysburg, a parallel contest took place abroad, both in the marbled courts of power and in the public square. Foreign observers held widely divergent views on the war—from radicals such as Karl Marx and Giuseppe Garibaldi who called on the North to fight for liberty and equality, to aristocratic monarchists, who hoped that the collapse of the Union would strike a death blow against democratic movements on both

sides of the Atlantic. Nowhere were these monarchist dreams more ominous than in Mexico, where Napoleon III sought to implement his Grand Design for a Latin Catholic empire that would thwart the spread of Anglo-Saxon democracy and use the Confederacy as a buffer state. Hoping to capitalize on public sympathies abroad, both the Union and the Confederacy sent diplomats and special agents overseas: the South to seek recognition and support, and the North to keep European powers from interfering. Confederate agents appealed to those conservative elements who wanted the South to serve as a bulwark against radical egalitarianism. Lincoln and his Union agents overseas learned to appeal to many foreigners by embracing emancipation and casting the Union as the embattled defender of universal republican ideals, the “last best hope of earth.” A bold account of the international dimensions of America's defining conflict, *The Cause of All Nations* frames the Civil War as a pivotal moment in a global struggle that would decide the survival of democracy.

## **The Curtiss Aviation Book**

A comprehensive history of the first three decades of underwater exploration in antebellum America. Beginning in 1837, some of the most brilliant engineers of America's Industrial Revolution turned their attention to undersea technology. Inventors developed practical hard-helmet diving suits, as well as new designs of submarines, diving bells, floating cranes, and undersea explosives. These innovations were used to clear shipping lanes, harvest pearls, mine gold, and wage war. All of these underwater technologies were brought together by entrepreneurs, treasure-hunters, and daring divers in the 1850s to salvage three infamous shipwrecks on Lake Erie, each of which had involved the loss of hundreds of lives, as well as the worldly goods of the passengers. The prospect of treasure, combined with the national notoriety of these disasters, soon attracted the attention of local adventurers and the country's leading divers and marine engineers. In *The Heroic Age of Diving*, Jerry Kuntz shares the fascinating stories of the pioneers of underwater invention and the brave divers who employed the new technologies as they raced with—and against—marine engineers to salvage the tragic wrecks of Lake Erie. "Jerry Kuntz has filled in a previously blank page in the story of diving—and done it well. *The Heroic Age of Diving* tells the story not only of the development of salvage technology but also the human side of this always-dangerous and often-deadly career. This is not a tale for the faint of heart ('helmet squeeze' is a gruesome fate), but one well worth reading for those interested in early technology and the men brave (or foolish) enough to gamble their lives using it. This book is a window on an unexplored (and unexpected) world, and the author deserves great credit for bringing it back into the light." — Chuck Veit, author of *Raising Missouri: John Gowen and the Salvage of the U.S. Steam Frigate Missouri, 1843–1852* "The Heroic Age of Diving is both very interesting and very important. Having spent over twenty years researching and publishing general diving history, I am confident that this book will fill an important gap in the nation's diving history." — Leslie Leaney, Cofounder, Historical Diving Society

## **Stopping for a Spell**

It's the end of the 21st century where technocrats rule and robots take care of humans' every need. Your house watches you, knows your secrets, and talks to you. And your closest friend can be—a machine? Gavin Bell and his teenage sister Fleur come from a middle-class family. Their much-loved, old-fashioned robot, Grumps, is running down and can't be repaired, so a scientist friend loans them EGR3, an experimental new robot to help Grumps. EGR3, known as Eager, learns from his experiences, as a child would. He feels emotions—wonder, excitement, and loss. When the ultra high-tech, eerily human BDC4 robots begin to behave suspiciously, Eager and the Bells are drawn into a great adventure that is sometimes dark and often humorous. As Eager's extraordinary abilities are tested to the limit, he will try to find the answer to this

question: What does it mean to be alive? From the Hardcover edition.

From 1887 to 1893, the era Frederick Jackson Turner marked as the close of the American frontier, a young woman scandalized the residents of the Dakotas, Minnesota and northern Wisconsin with her fetching appearance, eccentric behavior and criminal misdeeds. Best known as Nellie King, she employed over a dozen other aliases throughout her career as fake detective, horse thief, laudanum fiend and general disturber of the dubious peace of saloons and brothels across the northern plains. She attracted sensational headlines, love-struck suitors and stray revolver shots with equal abandon; her story's Dickensian cast of characters included a hapless counterfeiter, a dashing physician, a battle-hardened magician and a determined mother. In this engaging narrative, Jerry Kuntz pieces together the clues to her true identity for the first

time.

"After an introduction on the interconnections of the ancient world, four sections cover the world geographically: the Mediterranean and Roman Empire, West and Central Asia, Asia, and the Americas. Each section begins with a map and follows with color plates of 150 works, each accompanied by explanatory text. Celts excelled in intricate metalwork; Egyptians melded Greco-Roman and Egyptian styles; peoples east of the Mediterranean produced a wide range of sculpture, ceramics, and precious metal objects; and in what is now Afghanistan, Pakistan, and northern India, Buddhist art was incorporated with Greco-Roman influences. In East Asia, China's empire under the Han Dynasty created artifacts in every medium, and seminomads in northern China fabricated metalwork often to adorn horses. In cultures of the Pacific in South and Mesoamerica, objects were made from stone, ceramic, and gold."--Krisostomus.

## **Personally, I Blame My Fairy Godmother**

It's hard to imagine a wilder pair of brothers than Alfred and George Lawson. Best known as early promoters of professional baseball, they were intense rivals whose shared narcissism led them from one grand scheme to another, both in and away from the game, generating headlines as they went. Alfred had a long career as a player, manager, and minor league organizer before gaining notoriety as a utopian novelist, philosopher, economic reformer, cult leader, and early aviation promoter. George was a soldier, vaudeville troupe manager, performing hypnotist, medical quack, evangelist, and anti-KKK crusader who sought to break baseball's color line by founding integrated leagues.
