The creator of CSI delves into the mysteries of his father's tragic death and his own unlikely rise in Hollywood using the very techniques he has honed by working on his hit shows, CSI, CSI: Miami, and CSI: New York. Deeply felt and insightful, Anthony Zuiker's searing memoir of dreams and losses, successes and heartbreaks, is not only a behind-the-scenes look at television's most-watched drama, but an essential guide for aspiring script writers and filmmakers, featuring practical tips and inspiring lessons to help tomorrow's writers succeed today. Fans of crime dramas, anyone who dreams of unraveling the mysteries of their own story, and everyone who dreams of making it big will find themselves immediately drawn in by the one-of-a-kind story of the man who made it: Mr. CSI.

My Word Book

Ellie has a boyfriend! And he's really, truly interested in her - not in her best friends, Magda and Nadine! She and oh-so-gorgeous Russell have so much in common - Ellie knows they're made for each other. If only Dad thought so too . . . While Ellie tries her best to cope with Dad's totally unreasonable curfew, Magda's dealing with her crush on a teacher - and Nadine's falling for slimy Liam again. What they need is a girls' night out - but they might get a little more than they bargained for . . .

Their love is taboo. The crossing of wolveren bloodlines is forbidden. Yet Eirik, supreme alpha and king of the wolves, is tired of hiding his love for Gunnar. The last of his kind, he's cursed to be without a mate during his long life. He refuses his destiny and seeks solace with one of those closest to him. King's guard Gunnar knew he could never expect to stand at the king's side when he let the man take him to bed, no matter how much he began to crave it over the decades. He'd given his life to be a member of the elite warriors, not a king's consort, but he can't stop

wishing the king could be his. Moments before Eirik can change the laws governing their world, an old enemy comes bearing a unique gift. Perhaps Eirik's not the last of his kind after all.

Ciarcia's Circuit Cellar

The New York Times–bestselling author of the Commissario Guido Brunetti series takes readers beyond the Venice police force in her first standalone novel. Caterina Pellegrini is a native Venetian, and like so many of them, she's had to leave home to pursue her career. With a doctorate in baroque opera from Vienna, she lands in Manchester, England. Manchester, however, is no Venice. When Caterina gets word of a position back home, she jumps at the opportunity. The job is an unusual one. After nearly three centuries, two locked trunks—believed to contain the papers of a baroque composer—have been discovered. Deeply connected in religious and political circles, the composer died childless; now, two Venetians, descendants of his cousins, each claim the inheritance. Caterina's job is to examine any enclosed papers to discover the “testamentary disposition” of the composer. But when her research takes her in unexpected directions, she begins to wonder just what secrets these trunks may hold. From a masterful writer, *The Jewels of Paradise* is a superb novel, a gripping tale of intrigue, music, history, and greed. “Commissario Brunetti is allowed to take a vacation once in a while, but only if his replacements are as wry and erudite as Caterina.” —The Washington Post “Fascinating . . . Boasts the same sensitivity to human behavior that distinguishes her Guido Brunetti series.” —Booklist “A veteran mystery maven weaves present-day Venice into a 300-year-old puzzle in this engaging stand-alone . . . Packs the charms of Venice into a smart whodunit.” —Kirkus Reviews “Elegant prose, with humorous, wonderfully detailed descriptions as seen through the eyes of her heroine.” —Opera News

Destiny awaits Bianca and Lucas . . . Bianca and Lucas have always believed they could endure anything to be together. When a twist of fate not only transforms Bianca into a wraith but also turns Lucas into a vampire—the very creature he spent his life hunting—they are left reeling. Haunted by his powerful need to kill, Lucas can turn to only one place for help . . . Evernight Academy. Bianca is determined to remain with him. But with the vampire leader of Evernight waging a war against wraiths, her former home has become the most dangerous place she could be, despite the new powers her ghostly transformation has given her. A

battle between wraiths and vampires looms, and Bianca and Lucas face a terrifying new reality. They've overcome every obstacle life has thrown at them, but is their love strong enough to survive the challenges after life?

Super Nurse

Jamal Hayes is fifteen and caught up in the wrong stuff in Chicago. Because his mother cannot take care of him, he is sent to live with his grandfather in Memphis. Pop is old-school in every way. From the moment he arrives in Memphis, Jamal knows that Pop means business and that he will have to do his best to win his respect. As a way to get out of the work his grandfather lines up for him daily, Jamal goes to wrestling practice one afternoon. He is worn out after his first practice and really sore the next morning, but he also has a feeling of accomplishment and he respects the coach. Led by Coach Zane Russo, the wrestling team and its practices are tough, but Jamal knows that he has found something that he is good at where he can succeed. Every day, Jamal endures the work and finds his niche, landing in the 152 finals of the Freshman City Championships. As he becomes stronger and better at wrestling, his relationship with his grandfather improves. The future looks better and better for Jamal but can it continue?

A Slice of the Pie

How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. *A Slice of the Pie* will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

The Last Dire Wolf

The aim of this volume is to give an introduction and overview to differential topology, differential geometry and computational geometry with an emphasis on some interconnections between these three domains of mathematics. The chapters give the background required to begin research in these fields or at their interfaces. They introduce new research domains and both old and new conjectures in these different subjects show some interaction between other sciences close to mathematics. Topics discussed are; the basis of differential topology and combinatorial topology, the link between differential geometry and topology, Riemannian geometry (Levi-Civita connection, curvature tensor, geodesic, completeness and curvature tensor), characteristic classes (to associate every fibre bundle with isomorphic fiber bundles), the link between differential geometry and the geometry of non smooth objects, computational geometry and concrete applications such as structural geology and graphism.
