The Little Book of Restorative Justice

This report serves to assess the Nation's progress in addressing juvenile crime. The 2007 data bring some welcome news, as the recent trend of modest

increases in juvenile arrests in 2005 and 2006 has been broken. The good news is reflected not only in the 2% decline in overall juvenile arrests and the 3% decline in juvenile arrests for violent crimes from 2006 to 2007 but also in the data for most offense categories, for males and females, and for white and minority youth. However, one area that merits continued attention is disproportionate minority contact with the juvenile justice system. For example, the arrest rate for robbery among black juveniles was more than 10 times that for white youth in 2007. Charts and tables.

coming-of-age story of a boy who must overcome the effects that violence has had on his life. After severely injuring Peter Driscall in an empty parking lot, mischief-maker Cole Matthews is in major trouble. But instead of jail time, Cole is given another option: attend Circle Justice, an alternative program that sends juvenile offenders to a remote Alaskan Island to focus on changing their ways. Desperate to avoid prison, Cole fakes humility and agrees to go. While there, Cole is mauled by a mysterious white bear and left for dead. Thoughts of his abusive parents, helpless Peter, and his own anger cause him to examine his actions and seek redemption—from the spirit bear that attacked him, from his victims, and, most importantly, from himself. Ben Mikaelson paints a vivid picture of a juvenile offender, examining the roots of his anger without absolving him of responsibility for his actions, and questioning a society in which angry people make victims of their peers and communities. *Touching Spirit Bear* is a poignant testimonial to the power of a pain that can destroy, or lead to healing. A strong choice for independent reading, sharing in the classroom, homeschooling, and book groups.

COMMUNITIES Forty years in, the tough on crime turn in American politics has spurred a prison boom of historic proportions that disproportionately affects Black communities. It has also torn at the lives of those on the outside. As arrest quotas and high tech surveillance criminalize entire blocks, a climate of fear and suspicion pervades daily life, not only for young men entangled in the legal system, but for their family members and working neighbors. Alice Goffman spent six years in one Philadelphia neighborhood, documenting the routine stops, searches, raids, and beatings that young men navigate as they come of age. In the course of her research, she became roommates with Mike and Chuck, two friends trying to make ends meet between low wage jobs and the drug trade. Like many in the neighborhood, Mike and Chuck were caught up in a cycle of court cases, probation sentences, and low level warrants, with no clear way out. We observe their girlfriends and mothers enduring raids and interrogations, "clean" residents struggling to go to school and work every day as the cops chase down neighbors in the streets, and others eking out a living by providing clean urine, fake documents, and off the books medical care. This fugitive world is the hidden counterpoint to mass incarceration, the grim underside of our nation's social experiment in punishing Black men and their families. While recognizing the drug trade's damage, *On The Run* reveals a justice system gone awry: it is an exemplary work of scholarship highlighting the failures of the War on Crime, and a compassionate chronicle of the families caught in the midst of it. Women, Gender, and Crime: Core Concepts provides you with a complete and concise view into the intersection of gender and the criminal justice system. Author Stacy L. Mallicoat explores core topics on women as victims, offenders, and criminal justice professionals as they interact with various areas of the criminal justice system. She investigates relevant subjects that are not found in many traditional texts, including women who work as victim advocates and international issues of crime and justice relating to gender. Key Features: This text discusses women and victimization prior to covering women as offenders, because victimization is often a precursor to offending. Case Studies present compelling examples that connect concepts to real-life occurrences to reinforce learning and cover key issues, such as, sexual victimization in the military, stalking on college campuses, financial challenges for incarcerated women, pregnancy and policing, and self-care for victim advocates. Coverage of critical topics introduce you to important issues such as gender representation in criminal justice academia, multiple marginalities and LGBT populations, cyberstalking, labor trafficking, and challenges faced by women as criminal justice practitioners. When teenagers scuffle during a basketball game, they are typically benched. But when Will got into it on the court, he and his rival were sprayed in the face at close range by a chemical similar to Mace, denied a shower for twenty-four hours, and then locked in solitary confinement for a month. One in three American children will be arrested by the time they are twenty-three, and many will spend time locked inside horrific detention centers that defy everything we know about how to rehabilitate young offenders. In a clear-eyed indictment of the juvenile justice system run amok, award-winning journalist Nell Bernstein shows that there is no right way to lock up a child. The very act of isolation denies delinquent children the thing that is most essential to their growth and rehabilitation: positive relationships with caring adults. Bernstein introduces us to youth across the nation who have suffered violence and psychological torture at the hands of the state. She presents these youths all as fully realized people, not victims. As they describe in their own voices their fight to maintain their humanity and protect their individuality in environments that would deny both, these young people offer a hopeful alternative to the doomed effort to reform a system that should only be dismantled. *Burning Down the House* is a clarion call to shut down our nation's brutal and counterproductive juvenile prisons and bring our children home.

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Written in a straightforward style by Maryam Ahranjani, Andrew Ferguson and Jamie Raskin – all of whom actively work in the area of juvenile justice -- the book addresses tough, important issues that directly affect today's youth, including the rights of accused juveniles, search and seizure, self-incrimination and confession, right to appeal, and the death penalty for juveniles. Focusing on cases that relate to the Fourth, Fifth, Sixth, and Eighth Amendments to the U.S. Constitution, the subject matter comes alive through a wide variety of in-book learning aids.

by a Pulitzer Prize-winning journalist is “an important book with a message of great urgency, especially to all concerned with the future of America’s children” (Booklist). In an age when violence and crime by young people is again on the rise, *No Matter How Loud I Shout* offers a rare look inside the juvenile court system that deals with these children and the impact decisions made in the courts had on the rest of their lives. Granted unprecedented access to the Los Angeles Juvenile Court, including the judges, the probation officers, and the children themselves, Edward Humes creates an unforgettable portrait of a chaotic system that is neither saving our children in danger nor protecting us from adolescent violence. Yet he shows us there is also hope in the handful of courageous individuals working tirelessly to triumph over seemingly insurmountable odds. Weaving together a poignant, compelling narrative with razor-sharp investigative reporting, *No Matter How Loud I Shout* is a convincingly reported, profoundly disturbing discussion of the Los Angeles juvenile court’s failings, providing terrifying evidence of the system’s inability to slow juvenile crime or to make even a reasonable stab at rehabilitating troubled young offenders. Humes draws an alarming portrait of a judicial system in disarray.

"Body Count diagnoses America's plague of violent crime. Its authors - William Bennett, John Dilulio, and John Walters - define the epidemic's size, its range, and its scope. Through stories and anecdotes they

present the very real human tragedies behind the numbers. Most important, they describe the source of violent crime: abject moral poverty, the destitution visited upon children raised without loving, capable, responsible adults who teach right from wrong. Though dozens of other explanations have been offered for America's horrifying rates of violent crime - from academics and clinicians, cops and social workers, politicians on the right and the left - they are, at best, proxies for the real cause. It is not prisons (or their scarcity), guns (or their excess), the death penalty, the exclusionary rule, or even material impoverishment. Look to the root of a criminally twisted tree, the authors argue, and you will find only moral poverty and its parasite: drug abuse." "And argue they do, with both powerful rhetoric and rigorous analysis. Bennett, Dilulio, and Walters demolish such myths as economic poverty causes crime; the United States imprisons a disproportionate number of its citizens; drug abuse is a victimless crime and nothing useful can be done about it anyway; the death penalty is today a major deterrent of crime; and incarceration doesn't work." "Each and every one of these myths is not merely wrong but tragically mistaken. The authors draw upon an immense fund of hard data and offer some of the most serious analysis ever given to America's criminal justice system - a system designed to protect America from violent crime, a system that has, for all practical purposes, failed, with one in three violent crimes committed by a person on either probation, parole, or pre-trial release. Body Count offers a radically new reading of the problem, proposes controversial but necessary policies at every level of government,

Even though youth crime rates have fallen since the mid-1990s, public fear and political rhetoric over the issue have heightened. The Columbine shootings and other sensational incidents add to the furor. Often overlooked are the underlying problems of child poverty, social disadvantage, and the pitfalls inherent to adolescent decisionmaking that contribute to youth crime. From a policy standpoint, adolescent offenders are caught in the crossfire between nurturance of youth and punishment of criminals, between rehabilitation and "get tough" pronouncements. In the midst of this emotional debate, the National Research Council's Panel on Juvenile Crime steps forward with an authoritative review of the best available data and analysis. Juvenile Crime, Juvenile Justice presents recommendations for addressing the many aspects of America's youth crime problem. This timely release discusses patterns and trends in crimes by children and adolescents--trends revealed by arrest data, victim reports, and other sources; youth crime within general crime; and race and sex disparities. The book explores desistance--the probability that delinquency or criminal activities decrease with age--and

evaluates different approaches to predicting future crime rates. Why do young people turn to delinquency? Juvenile Crime, Juvenile Justice presents what we know and what we urgently need to find out about contributing factors, ranging from prenatal care, differences in temperament, and family influences to the role of peer relationships, the impact of the school policies toward delinquency, and the broader influences of the neighborhood and community. Equally important, this book examines a range of solutions: Prevention and intervention efforts directed to individuals, peer groups, and families, as well as day care-, school- and community-based initiatives. Intervention within the juvenile justice system. Role of the police. Processing and detention of youth offenders. Transferring youths to the adult judicial system. Residential placement of juveniles. The book includes background on the American juvenile court system, useful comparisons with the juvenile justice systems of other nations, and other important information for assessing this problem.

Adolescence is a distinct, yet transient, period of development between childhood and adulthood characterized by increased experimentation and risk-taking, a tendency to discount long-term consequences, and heightened sensitivity to peers and other social influences. A key function of adolescence is developing an integrated sense of self, including individualization, separation from parents, and personal identity. Experimentation and novelty-seeking behavior, such as alcohol and drug use, unsafe sex, and reckless driving, are thought to serve a number of adaptive functions despite their risks. Research indicates that for most youth, the period of risky experimentation does not extend beyond adolescence, ceasing as identity becomes settled with maturity. Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies. Evidence of significant changes in brain structure and function during adolescence strongly suggests that these

cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems. This imbalance model implies dual systems: one involved in cognitive and behavioral control and one involved in socio-emotional processes. Accordingly adolescents lack mature capacity for self-regulations because the brain system that influences pleasure-seeking and emotional reactivity develops more rapidly than the brain system that supports self-control. This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system, raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century. It was in this context that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) asked the National Research Council to convene a committee to conduct a study of juvenile justice reform. The goal of Reforming Juvenile Justice: A Developmental Approach was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform, to assess the new generation of reform activities occurring in the United States, and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts.

Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinksmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. *The 57 Bus* is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight.
