Passage to Juneau

Wall Street's miasmal garbage washes up on the Jersey Shore when a small time broker falls in love: Is he attracted to the beautiful lady — or her brother's inside information? Held spellbound by a steamy, auburn-haired woman with a dubious past and a get-rich-quick, insider trading scheme, Austin Carr knocks down a beehive of bad-acting Bonacellis, including the ill-tempered "Mr. Vic" Bonacelli, who wants his redhead back, and local mob lieutenant Angelina "Mama Bones" Bonacelli, architect of a strange and excruciating death trap for the fast-talking stockbroker she calls smarty pants. To survive, Austin must unravel threads of jealousy, revenge and new affections, discover the fate of a pseudo ruby called the Big Mojo and slam the lid on a pending United States of America vs. Austin Carr insider trading case. Can Austin and his Jersey Shore mouthpiece possibly out maneuver the savvy U.S. District Attorney from Manhattan? Will anything matter for Austin ever again if Mama Bones flips that switch? Praise for BIG MOJO ... "Darkly comic and always entertaining — with an outrageous cast of characters including a scheming grandmother and a mysterious redhead. Our engaging hero, fueled by honor and passion, does the best he can in a world where the bad guys seem determined to do him in. Gordon Gekko meets Janet Evanovich in this wry and winning caper — Jack Getze does it again!" — Hank Phillippi Ryan, Agatha, Anthony and Mary Higgins Clark Award winning author of Truth Be Told "If Jack Getze's Austin Carr novels aren't on your must-read list, you don't know what you're missing. Austin Carr's that buddy your wife doesn't like you to hang out with. Fast-talking, wisecracking, and hard-living, he's the type of guy who swears he's only ever looking for a good time, and yet every night out with him seems to end in a fight. But you can't deny he's got heart — and BIG MOJO is Carr's most epic adventure yet. It's got frame-ups. Insider trading. Stolen jewels. Double-crosses. Triple-crosses. Love potions. Gunplay. And enough outsized characters it could only take place in the great state of New Jersey. So pick it up. Give it a read. But maybe tell the missus you're hanging out with someone else." — Chris F. Holm, author of the Collector Series "There's no way you can lose with an Austin Carr novel with a gorgeous redhead, a character with the moniker of "Mama Bones", a double-crossing business partner, more bad guys than can be seen in one place outside of the White House, and Austin's smart mouth that surely he learned by reading lots of Robert B. Parker's character Spenser ... A truly rollicking, fun, action-filled read with more twists than a fevered revival of Hula Hoop fanatics at a Jersey Shore ballroom ... And then, there's that redhead. Always that redhead ... " — Les Edgerton, author of The Genuine, Imitation, Plastic Kidnapping and others "The irrepressible Austin Carr is back, and he's sly and sardonic as ever. Jack Getze's BIG MOJO is a rollercoaster ride you don't want to miss!" — Hilary Davidson, Anthony Award Winning Author of Blood Always Tells

Tranquility

In 1968, nine sailors set off on the most daring race ever held: to single-handedly circumnavigate the globe nonstop. It was a feat that had never been accomplished and one that would forever change the face of sailing. Ten months later, only one of the nine men would cross the finish line and earn fame, wealth, and glory. For the others, the reward was madness, failure, and death. In this extraordinary book, Peter Nichols chronicles a contest of the individual against the sea, waged at a time before cell phones, satellite dishes, and electronic positioning systems. *A Voyage for Madmen* is a tale of sailors driven by their own dreams and demons, of horrific storms in the Southern Ocean, and of those riveting moments when a split-second decision means the difference between life and death.

On My Knees: Stark International 2

Everyone dreams of tropical escape. But what happens when you escape for too long? Imagine spending 24 hours a day with your spouse in 31 not-so-square feet . . . for years; crossing the Pacific Ocean on two gallons of fuel; and tossing spaghetti marinara around your living room, then cleaning it up while bouncing like ice in a martini shaker. Tightwads on the Loose tells the story of Wendy and Garth, lured to sea by the promise of adventure. They buy a 31-foot boat that fits their budget better than it fits Garth's large frame and set sail for an open-ended voyage, never imagining they'd be gone seven years, or cover 34,000 miles at the pace of a fast walk. They live without most "necessities" and learn that teamwork and a sense of humor matter most as they face endless "character-building opportunities." They make a long-anticipated visit to the island where Garth had been shipwrecked as a teenager, only to find it had become a penal colony. An electronic catastrophe in the Solomon Islands leaves them without navigation equipment, which forces them to trade their free-wheeling lifestyle for one that seems straight out of a '60s sitcom: jobs at a U.S. Army base in the Marshall Islands. In Asia, they dodge typhoons and ships that threaten to turn their home into kindling. Finally they endure a grueling 49-day nonstop ocean crossing. None of this prepares them for their arrival "home" to a post-9/11 America which leaves them wondering what had changed more, them or the world. Tightwads on the Loose offers a fun read to the armchair adventurer

-- or anyone afflicted with wanderlust.

Even the most well designed boats will suffer from wear and tear due to normal use on the water. Whilst accidents are less common, they too can result in damage which needs to be repaired on the spot. Highly illustrated, with step by step instructions, this book equips the reader with the vital 'first aid' skills he needs to make temporary repairs until he can get back to harbour. The Boat Repair Bible helps anyone who owns a boat to develop essential repair skills in the areas where problems most commonly arise. The section on hull and deck repairs covers fibreglass, wood, steel and ferro-cement hulls, and shows the reader how to deal with everything from leaks to impact damage, and much, much more. This section also covers domestic repairs, such as repairing upholstery, and troubleshooting problems with the heads. Amongst the many other techniques described, the section on general mechanics includes instructions on how to fix problems with a split fuel/water tank and leaking hydraulics, whilst the section on electrical repairs explains how to trace loose connections, replace damaged wiring and fix navigation instruments. The myriad of issues that can arise with the engine are covered in great detail, from how to deal with water in the fuel system to replacing the propeller and its shaft. From basic skills in safety, surveying and the use of tools, to advanced instructions on how to replace an engine, The Boat Repair Bible is as comprehensive as it is invaluable. With repairs specific to powerboats, sailboats, dinghies and outboards, it is a book no boat owner can afford not to own.

Tales of Swordfish and Tuna

In the last 30 years, China's record economic growth lifted half a billion people out of poverty, with rapid urbanization providing abundant labor, cheap land, and good infrastructure. While China has avoided some of the common ills of urbanization, strains are showing as inefficient land development leads to urban sprawl and ghost towns, pollution threatens people's health, and farmland and water resources are becoming scarce. With China's urban population projected to rise to about one billion - or close to 70 percent of the country's population - by 2030, China's leaders are seeking a more coordinated urbanization process. Urban China is a joint research report by a team from the World Bank and the Development Research Center of China's State Council which was established to address the challenges and opportunities of urbanization in China and to help China forge a new model of urbanization. The report takes as its point of departure the conviction that China's urbanization can become more efficient, inclusive, and sustainable. However, it stresses that achieving this vision will require strong support from both government and the markets for policy reforms in a number of areas. The report proposes six main areas for reform: first, amending land management institutions to foster more efficient land use, denser cities, modernized agriculture, and more equitable wealth distribution; second, adjusting the hukou household registration system to increase labor mobility and provide urban migrant workers equal access to a common standard of public services; third, placing urban finances on a more sustainable footing while fostering financial discipline among local governments; fourth, improving urban planning to enhance connectivity and encourage scale and agglomeration economies; fifth, reducing environmental pressures through more efficient resource management; and sixth, improving governance at the local level.

No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there's no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn--both faced the same challenges: eating well while having time to enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available--like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients--maybe the result wasn't identical, but it was still tasty. We ended up with over 150 substitutions and dozens of “make it yourself” options. As we traded recipes and knowledge with each other, we realized we were compiling information that became *The Boat Galley Cookbook: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on. Step-by-step directions to give even “non-cooks” the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican, Asian, and Potluck. The Boat Galley Cookbook is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.*

With the same rigorous observation (natural and social), invigorating stylishness, and encyclopedic learning that he brought to his National Book Award-winning *Bad Land*, Jonathan Raban conducts readers along the Inside Passage from Seattle to Juneau. The physical distance is 1,000 miles of difficult-and often treacherous-water, which Raban navigates solo in a 35-foot sailboat. But *Passage to Juneau* also traverses a gulf of centuries and cultures: the immeasurable divide between the Northwest's Indians and its first European explorers-- between its embattled fishermen and loggers and its pampered new class. Along the way, Raban offers captivating discourses on art, philosophy, and navigation and an unsparing narrative of personal loss.
