One bad decision can tear your world apart . . . December 1974. The pregnant driver is killed instantly. In the heat of the moment, Abby and Charlie make a

fateful decision. They flee, hoping heavy rain will erase the fact they were there. They both have too much to lose. But they have no idea who they've just killed or how many lives will be affected by her death. Everyone with a motive has an alibi, and those without alibis don't have a motive. Robin's determined that this won't be the case he's unable to unravel. Not when he's got his old boss to impress and a new team to lick into shape. Back at home, Adam joins a fundraising choir to keep himself occupied. Surely a case that's so far away won't draw him in this time? Fate has other ideas, though, and danger turns up--quite literally--on his doorstep. Riptide

With his Inspector Troy series, John Lawton has been compared to top historical espionage writers such as John le Carre and Len Deighton. Brilliantly re-creating London in the time of ration tickets and bread lines, *Bluffing Mr. Churchill* is a blistering page-turner. It is 1941. Wolfgang Stahl, an American spy operating undercover as an SS officer, has just fled Germany with Hitler's henchmen on his trail. Stahl's man in the American embassy, the shy and sheltered Calvin M. Cormack, is teamed with a boisterous MI5 officer, Walter Stilton, to find the spy and bring him to safety. Their investigation takes them across war-torn London, and in Cormack's case, into the arms of Kitty, his partner's rambunctious daughter.

As Cormack and Stilton close in on Stahl, bodies begin turning up — and the duo realize they may not be the only ones in pursuit of the spy. When his partner is suddenly murdered, Cormack must turn to the ingenious devices of his lover Kitty's old flame — Sergeant Troy of Scotland Yard. Together, they investigate the trail of murders and come to a horrifying realization — are Cormack and his spy being played by one of their own in the American embassy?

The Riptide Ultra-Glide

Atlantis Riptide

Josh Miller, 18 years old, sits in a packed courtroom, accused of the rape and murder of his high-school girlfriend, Faith. The novel, written in first person, recounts the dramatic saga of the last two years from Josh's point of view. Time is layered, events are staggered, so we see the action from one character's many different perspectives. Sometimes Josh describes extraneous events, sometimes he turns to internal monologue. As a consequence of the novel's structure, the reader lives the tension between the protagonist as an adolescent and as a man, both in his real physical existence and in his thoughts. Traditional coming-of-age themes are sharpened by Josh's ability to look back at them from the perspective

of a kid forced prematurely into adulthood. So much for general remarks. Within the first few pages, both the reader and Josh realize that the evidence convincingly implicates Josh. Obviously, we know that the heroine is dead; what we don't know is why though the prosecution's first witness would seem to have told us. We next find ourselves in the months before Josh and Faith meet. Josh's high school in an affluent Midwestern suburb is preparing to institute a pilot program for gifted kids taught by professors from a nearby university. Parental money talks, a room is transformed into an ideal setting for education, the students surprise everyone, including themselves, by their passionate interest in subjects and ideas that would seem to constitute a formula for adolescent boredom. It is into this class of exuberant, sometimes troubled, always brilliant young people that Faith Hansen walks, a "new girl" from Philadelphia whose credentials are off the chart. Josh is not interested in those credentials. Faith would seem to be the perfect girl, as sexy as she is smart, endowed with seductive charm and a sense of humor that won't quit. Though "such things do not happen in his world," Josh and Faith soon hook up intimately. Their relationship, like Faith herself, seems perfect: it is tender, sincere, profound. The two stake out their private world, an abandoned quarry deep in the woods whose only tie to civilization is a defunct narrow-gauge rail line. Josh builds them a place to be alone; the quarry provides steep walls for rock climbing and a promontory for summer diving. Much of the action of the novel takes place in and around this idyllic setting. There is of course the school, the courthouse, the occasional road trip. Josh's emotions as an adolescent painfully in love are

paralleled by his later struggle with Faith's absence not to mention officialdom's apparent decision that he is the cause. These emotions peak shortly before Faith's death, and again as the trial nears its conclusion. What happened to Faith is revealed in shocking fashion at the end of Part II; what happened to Josh must await the denouement of the story. I'm not going to describe these events here: knowing them will make the novel an entirely different read

Heart of the Dragon

INTERVENTION challenges two of the most sacred tenets of modern society, innovation and technology, from the perspective of the unique risks they present. Using genetic engineering as its model, it paints a vivid picture of the scientific uncertainties that biotech risk evaluations dismiss or ignore, and lays bare the power and money conflicts between academia, industry and regulators that have sped these risky innovations to the market. Intervention champions an alternative method for assessing the risks of technology, developed by the world's top risk experts, that can eliminate such conflicts, help regain public trust in science and government, and drive research and development toward more useful, safer products.

The Secret Diary of Laura Palmer

Two boys, one heroic bond, and the molding of Greece's greatest son. Before he became known as Alexander the Great, he was Alexandros, the teenage son of the king of Makedon. Rather than living a life of luxury, as prince he has to be better and learn faster than his peers, tackling problems without any help. One such problem involves his increasingly complicated feelings for his new companion, Hephaistion. When Alexandros and Hephaistion go to study under the philosopher Aristoteles, their evolving relationship becomes even harder to navigate. Strength, competition, and status define one's fate in their world-a world that seems to have little room for the tenderness growing between them. Alexandros is expected to command, not to crave the warmth of friendship with an equal. In a kingdom where his shrewd mother and sister are deemed inferior for their sex, and his love for Hephaistion could be seen as submission to an older boy, Alexandros longs to be a human being when everyone but Hephaistion just wants him to be a king.

Riptide, Oregon, 1983. A sleepy coastal town, where crime usually consists of underage drinking down at a Wolf Point bonfire. But then strange things start happening a human skeleton is unearthed in a local park and mutilated animals begin appearing, seemingly sacrificed, on the town's beaches. The Mercy of the Tide follows four people drawn irrevocably together by a recent tragedy as they do their best to reclaim their lives leading them all to a discovery that will change them and their town forever. At the heart of the story are Sam Finster, a senior in high school mourning the death of his mother, and his sister Trina, a nine-year-old deaf girl who denies her grief by dreaming of a nuclear apocalypse as Cold War tensions rise. Meanwhile, Sheriff Dave Dobbs and Deputy Nick Hayslip must try to put their own sorrows aside to figure out who, or what, is wreaking havoc on their once-idyllic town. Keith Rosson paints outside the typical genre lines with his brilliant debut novel. It is a gorgeously written book that merges the sly wonder of magical realism and alternate history with the depth and characterization of literary fiction. This book will appeal to fans of genre-bending authors such as Dean Koontz, Karen Russell, Kelly Link, and Kevin Barry. "

Interview with the Author Q - So, what makes the Afflicted series so special? A - It's really a blended mixture of things I've wanted to see in a science fiction / horror novel for some time. I love reading zombie books and wanted to write something with a different twist. I didn't want to do another you get bit and turn type of book. I wanted to add in the "What if's" to

get the reader engaged and make them think of the disturbing possibilities. Q - What order should I read the books in? A - The Afflicted series can be read in any order, but I'd suggest the following sequence: - Afflicted: Genesis (prequel) - Afflicted: Patient Zero - Afflicted: Rip Tide - Afflicted: Dead Reckoning Q - Why should readers give the Afflicted series a try? A - Because the Afflicted series is a dark action conspiracy thriller from the start of the first page. Readers who like fast paced vengeful thrillers and lots of mystery will enjoy the books. Thanks for reading!
