The Simple Guide to Home Electronics helps the average person navigate the bewildering array of choices in the ever-changing world of home electronics that impact our day to day lives. A wide variety of topics from lightbulbs to the Internet, TV, Telephone, Cameras, and the Internet of Things (IoT) are explained without all the tech savvy jargon. Each chapter begins with a general overview and practical advice followed by more in-depth information that will give you an understanding of the type of products available and how they work. If you have ever considered disconnecting your cable TV, a smart thermostat or turning on the lights with a voice activated product, then this book is for you. The author's light conversational style along with his own engaging stories, humor and points of view make these complex topics easy to understand. The information is presented in free-standing independent chapters that can be referenced over and over again as you replace and update the technology in your home.

## **The Simple Guide to Home Electronics, 2017**

The enormously puzzling TV series *The Prisoner* has developed a rapt cult following, and has often been described as "surreal" or "Kafkaesque." In *I Am (Not) a Number*, Cox takes an opposing view. While the series has surreal elements, he believes it provides the answers to all the questions which have confounded viewers: who is Number 6? Who runs The Village? Who—or what—is Number 1? According to Cox, the key is to view the series in the order in which the episodes were made, not in the order of the UK or US television screenings. In this book he does exactly that, and provides an entirely original and controversial "explanation" for what is perhaps the best, and certainly the most perplexing, TV series of all time.
