Generation TreX: My Thoughts is a journal recounting the personal experiences and insights of a young man while he plans a 27-month non-motorized trek of service throughout America. 1/24/00 - What will become of this quest? Will anyone care? I don't have an answer for these questions and I'm not sure I really want to. To be honest, I'm feeling a little tired of this idealistic crusade. I have no desire to make it a big hoopla event. I've been writing that the success of the Trek depends upon my committment to the principles and not the attention it recieves. In reality, however, I have been living the opposite. I have gotten so focused on the image and organization of the Trek that I have stopped simply doing it. This Trek is about exemplifying certain qualities in life, not getting on a TV show. It is about having the courage to display an example for others to follow. I don't have control of its scale (how many people hear about it), I just have control of its success (living its principles regardless of the circumstances). If I make it home it will be nothing short of a miracle. I don't know if I will complete the goal of the 10,350 mile Trek. I do know that I believe in its mission and have to try. I may set out on the Trek, but it is the support team and the people I meet along the way that will bring me home.
