California's Best Fly Fishing

This prize-winning novel of a fugitive priest in Mexico is quite simply “Graham Greene’s masterpiece” (John Updike, The New York Review of Books). In the Mexican state of Tabasco in the 1930s, all vestiges of Catholicism are being outlawed by the government. As churches are razed, icons are banned, and the price of devotion is execution, an unnamed member of the clergy flees. He’s

known only as the “whisky priest.” Beset by heretical vices, guilt, and an immoral past, he’s torn between self-destruction and self-preservation. Too modest to be a martyr, too stubborn to follow the law, and too craven to take a bullet, he now travels as one of the hunted—attending, in secret, to the spiritual needs of the faithful. When a peasant begs him to return to Tabasco to hear the confessions of a dying man, the whisky priest knows it’s a trap. But it’s also his duty—and possibly his salvation. Named by Time magazine as one of the hundred best English-language novels written since 1923, *The Power and the Glory* is “a violent, raw” work on “suffering, strained faith, and ultimate redemption” (The Atlantic).

Fishing Digest

From New York Times and USA TODAY bestselling author Barbara Freethy, an emotional, heartwarming contemporary romance set in a California river town, featuring a returned Marine and the woman he never forgot. Ex-Marine Gabe Ryder is fulfilling the last request of his best friend Rob, who was killed in a firefight during their final days of service. He promised to help Rob's family—especially Rob's twin sister, Alicia—with their struggling river rafting business. Gabe has a hidden past with Alicia, however; she's the woman who taught him that love might exist, but he walked away from her. Alicia has more than enough on her plate with her brother's death, her father's injury from a tragic rafting accident, the entire town turning against them, and a series of dangerous attacks on her business. She doesn't need this rugged loner who broke her heart. But passion flares between them, and this time, they can't walk away. Alicia can't help wondering: did Rob really send Gabe to watch over her—or did he want her to show Gabe the way home?

The Ocean Challenge Badge

In 1980, a rural Cuban family is torn apart during the Mariel Boat-lift. Uxbal Encarnación--father, husband, political insurgent--refuses to leave behind the

revolutionary ideals and lush tomato farms of his sun-soaked homeland. His wife Soledad takes young Isabel and Ulises hostage and flees with them to America, leaving behind Uxbal for the promise of a better life. But instead of settling with fellow Cuban immigrants in Miami's familiar heat, Soledad pushes further north into the stark, wintry landscape of Hartford, Connecticut. There, in the long shadow of their estranged patriarch, now just a distant memory, the exiled mother and her children begin a process of growth and transformation.

One of Vogue's Books We Can't Wait to Read in 2020, one of the Wall Street Journal's Nine Best Books to Read This Spring, one of BuzzFeed's Most Anticipated Books of 2020, one of Vulture's Books We Can't Wait to Read in 2020, one of Refinery29's 25 Books You'll Want to Read This Summer, and one of The Millions Most Anticipated Books of the First Half of 2020 A figure with no discernible identity appears in a small, religious town, throwing its inhabitants into a frenzy In a small, unnamed town in the American South, a church congregation arrives for a service and finds a figure asleep on a pew. The person is genderless and racially ambiguous and refuses to speak. One family takes in the strange visitor and nicknames them Pew. As the town spends the week preparing for a mysterious Forgiveness Festival, Pew is shuttled from one household to the next. The earnest and seemingly well-meaning townspeople see conflicting identities in Pew, and many confess their fears and secrets to them in one-sided conversations. Pew listens and observes while experiencing brief flashes of past lives or clues about their origin. As days pass, the void around Pew's presence begins to unnerve the community, whose generosity erodes into menace and suspicion. Yet by the time Pew's story reaches a shattering and unsettling climax at the Forgiveness Festival, the secret of who they really are—a devil or an angel or something else entirely—is dwarfed by even larger truths. Pew, Catherine Lacey's third novel, is a foreboding, provocative, and amorphous fable about the world today: its contradictions, its flimsy morality, and the limits of judging others based on their appearance. With

precision and restraint, one of our most beloved and boundary-pushing writers holds up a mirror to her characters' true selves, revealing something about forgiveness, perception, and the faulty tools society uses to categorize human complexity.

Presidio

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. His name was Christopher Johnson McCandless. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of

McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page. From the Trade Paperback edition.

Lizard Dreaming of Birds

Many people today are looking for a simpler, less hectic lifestyle. Are you one of those people? I know I am. Instead of running on the consumer nation treadmill like most people, I decided to take action and go in a different direction--which is where my off-the-grid project began. Knowing that other people are searching for

the same thing, I decided to document my adventure for their benefit. In *Going Off the Grid: The How-To Book of Simple Living and Happiness*, I provide a step-by-step guide for how to find your private piece of land and build a self-sustaining home. I recently built my own off-the-grid home in northeast Washington State, so this advice comes from first-hand experience. When building any home, things are not as easy as they appear on those DIY television shows. But with a little knowledge about how this process works in the real world, I believe anyone can achieve their dream of living a more quiet and peaceful life. The hardest part is taking the first step, and this book is the right place to start for any person interested in an off-the-grid adventure.

Explorer's Guide Yosemite & the Southern Sierra Nevada (Explorer's Complete)

Taking a hard look at the consequences of ignoring the rhythms found in nature, this novel focuses on Jubal Siner--an all-knowing antihero who offers freedom from the idea of redemption. Stylistically at home with Cormac McCarthy and Flannery O'Connor, this brooding work puts a twist on classic American literature by delving into a fascinating world of dark magical realism.

In today's new economy—in which “good” jobs are typically knowledge or technology based—many well-educated and culturally savvy young people are instead choosing to pursue traditionally low-status manual labor occupations as careers. *Masters of Craft* looks at the renaissance of four such trades: bartending, distilling, barbering, and butchering. In this engaging book, Richard Ocejo takes you into the lives and workplaces of these people to examine how they are transforming once-undesirable jobs into “cool” and highly specialized upscale occupations. He shows how they find meaning in these jobs by enacting a set of “cultural repertoires,” resulting in a new form of elite taste-making. Focusing on cocktail bartenders, craft distillers, upscale men's barbers, and whole-animal butcher shop workers in Manhattan, Brooklyn, and upstate New York, *Masters of Craft* provides new insights into the stratification of taste, the spread of gentrification, and the evolving labor market in today's postindustrial city.

New York Times Bestseller • Winner of the National Outdoor Book Award • Winner of the Saroyan International Prize for Writing • Winner of the Pacific Northwest Book Award • “The best outdoors book of the year.” —Sierra Club From a talent

who's been compared to Annie Dillard, Edward Abbey, David Quammen, and Jared Diamond, *On Trails* is a wondrous exploration of how trails help us understand the world—from invisible ant trails to hiking paths that span continents, from interstate highways to the Internet. While thru-hiking the Appalachian Trail, Robert Moor began to wonder about the paths that lie beneath our feet: How do they form? Why do some improve over time while others fade? What makes us follow or strike off on our own? Over the course of seven years, Moor traveled the globe, exploring trails of all kinds, from the miniscule to the massive. He learned the tricks of master trail-builders, hunted down long-lost Cherokee trails, and traced the origins of our road networks and the Internet. In each chapter, Moor interweaves his adventures with findings from science, history, philosophy, and nature writing. Throughout, Moor reveals how this single topic—the oft-overlooked trail—sheds new light on a wealth of age-old questions: How does order emerge out of chaos? How did animals first crawl forth from the seas and spread across continents? How has humanity's relationship with nature and technology shaped world around us? And, ultimately, how does each of us pick a path through life? Moor has the essayist's gift for making new connections, the adventurer's love for paths untaken, and the philosopher's knack for asking big questions. With a breathtaking arc that spans from the dawn of animal life to the digital era, *On Trails* is a book that makes us see our world, our history, our species, and our ways of life anew.

Casting Around the Eastern Sierra

The ocean covers 70 percent of the Earth's surface, and is essential for life on our planet – even for those of us who live nowhere near the sea! It provides us all with food and other materials that we need, regulates our climate and provides half of the oxygen we breathe. The ocean also offers us various means of transport and opportunities for recreation. People have long thought that the ocean was so wide and bountiful that it would go on supplying our needs forever, but this is not the case: human activities are causing significant damage to life in the ocean. People are often unaware of the problems created by this heavy reliance, as few of us have the opportunity to look beneath the surface of the sea and see the damage that our actions have caused. This is where the Ocean Challenge Badge comes in: let it take you on a journey to discover the ocean! It is packed with activities to help you learn about how the ocean works, the creatures that live in it, and just how important it is in our everyday lives. You will also discover how YOU can play a role in protecting our ocean for future generations. We hope you will be inspired to take the challenge and celebrate our ocean. So dive in and begin your aquatic discoveries!

The Youth Guide to the Ocean

A wickedly smart, funny, and irresistibly off-kilter account of an improbable thousand-mile journey on foot into the heart of modern Florida, the state that

Russell calls "America Concentrate." In the summer of 2016, Kent Russell--broke, at loose ends, hungry for adventure--set off to walk across Florida. Mythic, superficial, soaked in contradictions, maligned by cultural elites, segregated from the South, and literally vanishing into the sea, Florida (or, as he calls it: "America Concentrate") seemed to Russell to embody America's divided soul. The journey, with two friends intent on filming the ensuing mayhem, quickly reduces the trio to filthy drifters pushing a shopping cart of camera equipment. They get waylaid by a concerned citizen bearing a rifle; buy cocaine from an ex-wrestler; visit a spiritual medium; attend a cuckold party. The narrative overflows with historical detail about how modern Florida came into being after World War II, and how it came to be a petri dish for life in a suddenly, increasingly diverse new land of minority-majority cities and of unrivaled ethnic and religious variety. Russell has taken it all in with his incomparably focused lens and delivered a book that is both an inspired travelogue and a profound rumination on the nation's soul--and his own. It is a book that is wildly vivid, encyclopedic, erudite, and ferociously irreverent--a deeply ambivalent love letter to his sprawling, brazenly varied home state.

Like Huck Finn, Lane sees a river journey as a portal to change, but unlike Twain's character, Lane isn't escaping. He's getting intimate with the river that flows right past his home in the Spartanburg suburbs. Lane's three hundred mile float trip takes his down the Broad River and into Lake Marion before continuing down the Santee River.

Whitewater Rafting in Western North America

Across the High Lonesome is a modern western odyssey that invites the reader to hitch a ride through the glacial carved vales and over the high lonesome passes of California's -Range of Light.+ A journey of love, pain and adventure, brimming with unforgettable characters, salty humor, and recalcitrant mules. Brumfield has taken a lifetime of experience packing dudes into the mountains and distilled it into a delightful work of fiction.

On Trails

A nature book unlike any other, Jordan Fisher Smith's startling account of fourteen years as a park ranger thoroughly dispels our idealized visions of life in the great outdoors. Instead of scout troops and placid birdwatchers, Smith's beat -- a stretch of land that has been officially condemned to be flooded -- brings him into contact with drug users tweaked out to the point of violence, obsessed miners, and other dangerous creatures. In unflinchingly honest prose, he reveals the unexpectedly dark underbelly of patrolling and protecting public lands.

My Paddle to the Sea

Winner of the Nebraska Center for the Book Award, Travel - A Sigurd Olson Nature Writing Award Notable Book - Honoree of the Society of Midland Authors Annual Literary Award for Biography/Memoir Now that President Donald Trump has revived the Keystone XL pipeline that was rejected by former President Obama, *Trespassing Across America* is the book to help us understand the kaleidoscopic significance of the project. Told with sincerity, humor, and wit, Ilgunas's story is both a fascinating account of one man's remarkable journey along the pipeline's potential path and a meditation on climate change, the beauty of the natural world, and the extremes to which we can push ourselves--both physically and mentally. It started as a far-fetched idea--to hike the entire length of the proposed route of the Keystone XL pipeline. But in the months that followed, it grew into something more for Ken Ilgunas. It became an irresistible adventure--an opportunity not only to draw attention to global warming but also to explore his

personal limits. So in September 2012, he strapped on his backpack, stuck out his thumb on the interstate just north of Denver, and hitchhiked 1,500 miles to the Alberta tar sands. Once there, he turned around and began his 1,700-mile trek to the XL's endpoint on the Gulf Coast of Texas, a journey he would complete entirely on foot, walking almost exclusively across private property. Both a travel memoir and a reflection on climate change, *Trespassing Across America* is filled with colorful characters, harrowing physical trials, and strange encounters with the weather, terrain, and animals of America's plains. A tribute to the Great Plains and the people who live there, Ilgunas's memoir grapples with difficult questions about our place in the world: What is our personal responsibility as stewards of the land? As members of a rapidly warming planet? As mere individuals up against something as powerful as the fossil fuel industry? Ultimately, *Trespassing Across America* is a call to embrace the belief that a life lived not half wild is a life only half lived.

This Ocean Guide was jointly developed by FAO and PML, with contributions from many other institutions. It is designed as an educational resource for schools, youth groups and other curious young learners. This fact-filled Guide explores the ocean from the coastal zones to the frozen poles, the deep sea to the open ocean. It takes a close look at the physical features and natural processes that shape the

incredible plant and animal life to be found underwater as well as life-forms exposed by the tides. It also demonstrates the many benefits the ocean provides us, discusses the negatives impacts we unfortunately have on the ocean and explains how good management can help protect and conserve the ocean and ocean life. At the end of the Guide, inspiring examples of youth-led initiatives are provided, and an easy-to-follow action plan aims to help YOU develop your own ocean conservation activities and projects.

Safe House

“Fluent, mordant, authentic, propulsive...wonderfully lit from within” (Lee Child, The New York Times Book Review), this critically acclaimed, stunningly mature literary debut is the darkly comic story of a car thief on the run in the gritty and arid landscape of the 1970s Texas panhandle. In this “stellar debut,” (Publishers Weekly) car thief Troy Falconer returns home after years of wandering to reunite with his younger brother, Harlan. The two set out in search of Harlan’s wife, Bettie, who’s left him cold and run away with the little money he had. When stealing a

station wagon for their journey, Troy and Harlan find they've accidentally kidnapped a Mennonite girl, Martha Zacharias, sleeping in the back of the car. But Martha turns out to be a stubborn survivor who refuses to be sent home, so together, these unlikely road companions haphazardly attempt to escape across the Mexican border, pursued by the police and Martha's vengeful father. But this is only one layer of Troy's story. Through interjecting entries from his journal that span decades of an unraveling life, we learn that Troy has become so estranged from society that he's shunned the very idea of personal property. Instead of claiming possessions, he works motels, stealing the suitcases and cars of men roughly his size, living with their things until those things feel too much like his own, at which point he finds another motel and vanishes again into another man's identity. Richly nuanced and complex, "like a nesting doll, [Presidio] continually uncovers stories within stories" (Ian Stansel, author of *The Last Cowboys of San Geronimo*). With a page-turning plot, prose as gritty and austere as the novel's Texas panhandle setting, and a determined yet doomed cast of characters ranging from con artists to religious outcasts, this "rich and rare book" (Annie Proulx, author of *Barkskins*) packs a kick like a shot of whiskey. Perfect for fans of Cormac McCarthy, Denis Johnson, and Larry McMurtry, who said that Kennedy "captures the funny yet tragic relentlessness of survival in an unforgiving place. Let's hope he keeps his novelistic cool and brings us much, much more."

techniques used for landing trophy striped bass and other species in Californias famed Delta. Anglers from all over the country will learn how to fish the Deltas 2,000 levees and 1,200 miles of rivers as shown in 150 spectacular photos.

Across the High Lonesome

In the summer of 1803, Thomas Jefferson sent Meriwether Lewis and William Clark on a journey to establish an American presence in a land of unqualified natural resources and riches. Is it fitting that, on the 200th anniversary of that expedition, the United States, together with international partners, should embark on another journey of exploration in a vastly more extensive region of remarkable potential for discovery. Although the oceans cover more than 70 percent of our planetâ€™s surface, much of the ocean has been investigated in only a cursory sense, and many areas have not been investigated at all. Exploration of the Seas assesses the feasibility and potential value of implementing a major, coordinated, international program of ocean exploration and discovery. The study committee surveys national and international ocean programs and strategies for cooperation between governments, institutions, and ocean scientists and explorers, identifying strengths, weaknesses, and gaps in these activities. Based primarily on existing documents, the committee summarizes priority areas for ocean research and exploration and examines existing plans for advancing ocean exploration and knowledge.
