Structural and Sociolinguistic Perspectives on Indigenisation

Orchids

Vols. for 1975- include publications cataloged by the Research Libraries of the New York Public Library with additional entries from the Library of Congress MARC tapes.

Educational Courant

American Journal of Education

Science

A Missouri Farm Boy Gets an Education

The Journal of Education

The Eclectic Magazine of Foreign Literature, Science, and Art

Appendix to the Journals of the House of Representatives of New Zealand

The Eclectic Magazine

Includes special issues.

The Musician

Tailored Thin Coatings for Corrosion Inhibition Using a Molecular Approach discusses the fundamentals and applications of various thin coatings for the inhibition of fouling and corrosion from a molecular perspective. It provides the reader with a fundamental understanding of why certain coatings perform better than others in a given environment. Surface analytical and electrochemical techniques in understanding the coating performance are emphasized throughout the book, providing readers with a useful reference on how to pursue a systematic corrosion inhibitor R&D program that involves the testing of coating performance using various, currently available, state-of-the-art laboratory techniques. Wherever relevant, environmental considerations of the discussed coatings' technologies are highlighted and discussed, with current and upcoming regulatory trends put forth by different governmental organizations. Provides atomic and molecular level understanding of tailored thin coatings for corrosion inhibition Discusses key steps in corrosion, including the attachment of harmful substances to surfaces, the fouling of surfaces, and the initiation and propagation of corrosion on surfaces Written by leading experts in the field

Charges Against the Federal Board for Vocational Education

Emanation and extension of the 30th International LAUD Symposium, held Apr. 19-22, 2004 at the Universiteat Koblenz-Landau.

The National Union Catalogs, 1963-

Irish University Press Series of British Parliamentary Papers

British Education Index

The Athenaeum

The (dis)empowerment of languages through language policy in multilingual postcolonial communities often shapes speakers' identification with these languages, their attitude towards other languages in the community, and their choices in interpersonal and intergroup communication. Focusing on the dynamics of Cameroon's multilingualism, this book contributes to current debates on the impact of politic language policy on daily language use in sociocultural and interpersonal interactions, multiple identity construction, indigenous language teaching and empowerment, the use of Cameroon Pidgin English in certain formal institutional domains initially dominated by the official languages, and linguistic patterns of social interaction for politeness, respect, and in-group bonding. Due to the multiple perspectives adopted, the book will be of interest to sociolinguists, applied linguists, pragmaticians, Afrikanists, and scholars of postcolonial linguistics.

The Eclectic Magazine

Includes music.

Resources in Education

The Education Outlook

Explorations Into Language Use in Africa

Fundamentals of Advanced Omics Technologies: From Genes to Metabolites covers the fundamental aspects of the new instrumental and methodological developments in omics technologies, including those related to genomics, transcriptomics, epigenetics, proteomics and metabolomics, as well as other omics approaches such as glycomics, peptidomics and foodomics. The principal applications are presented in the following complementary volume. The chapters discuss in detail omics technologies, DNA microarray analysis, next-generation sequencing technologies, genome-wide analysis of

methylation and histone modifications, emerging nanotechniques in proteomics, imaging mass spectrometry in proteomics, recent quantitative proteomics approaches, and advances in high-resolution NMR-based metabolomics, as well as MS-based non-targeted metabolomics and metabolome analysis by CE-MS, global glycomics analyses, foodomics, and high resolution analytical tools for quantitative peptidomics. Key aspects related to chemometrics, bioinformatics, data treatment, data integration and systems biology, deep-sequencing data analysis, statistical approaches for the analysis of microarray data, the integration of transcriptome and metabolome data and computational approaches for visualization and integration of omics data are also covered. Covers the latest advances in instrumentation, experimental design, sample preparation, and data analysis Provides thorough explanations and descriptions of specific omics technologies Describes advanced tools and methodologies for data pretreatment, storage, curation and analysis, as well as data integration

Language Policy and Identity Construction

Descriptions of new varieties of European languages in postcolonial contexts have focused exceedingly on system-based indigenisation and variation. This volume—while further illustrating processes and instantiations of indigenisation at this level—incorporates investigations of sociolinguistic and pragmatic phenomena in daily social interaction—e.g. politeness, respect, compliment response, naming and address forms, and gender—through innovative analytic frameworks that view indigenisation from emic perspectives. Focusing on postcolonial Cameroon and using natural and questionnaire data, the book assesses the salience of linguistic and sociocultural hybridisation triggered by colonialism and, recently, globalisation in interaction in and across languages and cultures. The authors illustrate how the multilingual nature of the society and individuals' multilingual repertoires shape patterns in the indigenisation and evolution of the ex-colonial languages, English and French, and Pidgin English.

Saturday Review of Politics, Literature, Science and Art

Journal of Education

The Farmer's Magazine

Annual Report of the Commissioner of Education

Vols. for 1911-13 contain the Proceedings of the Helminothological Society of Washington, ISSN 0018-0120, 1st-15th meeting.

Tailored Thin Coatings for Corrosion Inhibition Using a Molecular Approach

National Union Catalog

The Youth's Companion

Journal of Education

Includes entries for maps and atlases.
