First published in 1973 Professor Akenstone(tm)s book traces the series of religious and political controversies which have battered the state schools of Northern Ireland. After the governmente(tm)s admirably intentioned, but muddled, attempt to create a non-sectarian school system in the early 1920s, the educational system was progressively manipulated by sectarianism. The way in which the author describes how children are schooled reveals a great deal about the attitudes and values of the parental generation and also helps to explain the actions of later generations.

"The Conservative Collection" reinforces fundamental holdings of the Right. A strong, free, and thriving America requires us to value our founding principles and apply them in a modern world. Yet constant assaults on the very philosophies that birthed American exceptionalism jeopardize our sustained superiority. It, therefore, falls upon Conservatives to reenergize, inform, and strengthen the citizenry with the truths and successes stemming from conservatism. We need a strong America, one which will continue to be the home of liberty and prosperity. Discussed within "The Conservative Collection" are eleven areas of conservative concern: Conservative History, Individual Liberty, The Legislature, The Executive, The Judiciary, Economic Strength, Educational Strength, Military Strength, Personal Responsibility, International Leadership, and Moving America Forward. In our unique nation of states, built upon the pillars of liberty and opportunity, we are responsible for protecting the blessings of freedom and ensuring our future welfare; "The Conservative Collection" looks to aid others in achieving those most-noble duties. A series of short essays complete this work, divided between the book's eleven sections. Not only does "The Conservative Collection" focus significant attention toward government and politics but also on character development and individual maturity. All Americans (Conservative or otherwise) must be leaders in a turbulent world-something not accomplished without purpose and principle.
