Prodigious Birds brings together the entire field of moa-related research, some 150

years of enquiry. The moa was a large flightless bird, hunted into extinction by the Maori tribes of New Zealand before the arrival of Europeans. Atholl Anderson brings an historical perspective to the development of moa research and its formative debates, analytical methods and results, reviewing evidence from palaeontology, biology, archaeology, ethnography and history.

Why do Christians find it hard to believe that tithing is not part of the New Law that Jesus enacted and that it curses them? Is it because they love following tradition, or too lazy to study Elohim word, or listen to a pastor or someone's testimony? Heb 7:12 tells us that a New Priest and a New Law has been introduced.

Dr. Sam Parnia faces death every day. Through his work as a critical-care doctor in a hospital emergency room, he became very interested in some of his patients' accounts of the experiences that they had while clinically dead. He started to collect these stories and read all the latest research on the subject, and then he conducted his own experiments. That work has culminated in this extraordinary book, which picks up where Raymond Moody's Life After Life left off. Written in a scientific, balanced, and engaging style, this is powerful and compelling reading. This fascinating and controversial book will change the way you look at death and dying.

What Happens When We Die?

In 'If It Is Sweet', precisely etched characters collide, the blind suddenly seeing the blind. Mridula Koshy plumbs the chasms across which they stare, asking the question: what is it people see when they see one another? Her characters are proximate, though from vastly different class backgrounds. Servants and mistresses. Middle-class insomniacs wandering the same footpaths on which labourers wake to care for their sleepless infants. An old man, his maid, and a koodawallah, and a conversation that ends in both insight and blindness. If 'It is

Sweet' does not set out to transport the reader to another world. It is one rooted in an unsettled world; it intends to unsettle.

Playing for Time

A woman relinquishes her four-year-old son to tourists passing through town. Losing him, she loses the story of her future. A world away from her, the boy becomes a man without the story of his past. Decades on, the mother struggles on her deathbed to find the story that will release her from life; the son's struggle is for the story that will allow him to live. Not Only the Things That Have Happened is a novel about the stories that make us and break us and then remake us. The novel takes place over a thirty-six hour period, travelling between far-flung places, characters, the past and the future. Time is a character here, revealing that though the story of our present is always told for us, the story of the past and the future is ours to tell.

As a flight attendant, I meet a lot of famous people. Some I never see again. Darcy Rayne was the exception. The handsome, sexy king of the football world. At first, I denied the attraction. I don't date players. Especially the off-field kind. I'm a regular girl, and my world is too small for someone like him. Turned out, I underestimated a footballer's determination and focus to never give up. So, I gave in. He had a dream before me. Almost lost it because of me. In my darkest hour when I needed him most, he got his dream. And I lost a piece of my heart.

Little Pip liked it when her family was just three. But now the egg seems to be all her parents can think about and Pip can't understand why. Her parents are very excited about the egg and tell her this new change will make their family "just right". But Little Pip isn't so sure... she thinks her family is just right the way it is and a boring old egg can't make it any better! All through the long, harsh winter Pip's parents look after the egg, keeping it warm and safe. Little Pip learns to help as much as she can, even though she still doesn't know what all the fuss is about... until, one day the egg cracks open, and Little Pip meets her new baby brother for the first time! An adorable and reassuring story, perfect for introducing the idea of a new baby coming into the family.
