The Doctrine and Covenants of the Church of Jesus Christ of Latter-day Saints

What's a corporate demon to do, when the voice in her head is devouring her sanity from the inside out, and the hosts of heaven and hell would rather see her destroyed than surrender a power no one should possess? Ronnie has the job any entry-level angel or demon would sell their soul for-she's a retrieval analyst for the largest search engine in the world. Ubiquity is a joint initiative between heaven and hell. Because what better way to track all of humanity's secrets, both good

and bad, than direct access to their web browsing habits? She might appreciate the position a little more if a) she could remember anything about her life before she started working at Ubiquity, b) the damned voice in her head would just shut up already, and c) her boss weren't a complete control freak. As she searches for solutions to the first two issues, and hopes the third will work itself out in performance reviews, she uncovers more petty backstabbing than an episode of Real Housewives, and a conspiracy as old as Lucifer's descent from heaven. Now Ronnie's struggling to keep her sanity and job, while stopping the voice in her head from stealing her life. She almost misses the boredom of retrieval analysis at Ubiquity. Almost.

This book presents a comprehensive treatment of the subject of evaluation as applied to literacy programs, covering evaluation theory, planning, and practice. Part I discusses questions of definition, context, objectives, and functions of evaluation and presents descriptions and analyses of evaluation paradigms and models. In Part II, the interrelated processes of evaluation planning and management are discussed, and evaluation planning and management approaches are explained and demonstrated. Parts III, IV, and V focus on the three components of the evaluation management approach discussed in Part II: management information systems (MIS), naturalistic evaluation (NE), and rationalistic evaluation (RE). Chapters in these parts cover: (1) theory, questions, and design of an MIS, NE, or RE; (2) writing a proposal for an MIS or for an evaluation study in the naturalistic or rationalistic mode; (3) tools and techniques of the three approaches; and (4) writing periodical and special reports. Part VI discusses the politics of evaluation, the need to establish evaluation standards for meta-evaluations, and the related question of evaluators' training. A glossary is appended. (YLB)

The Book of Alma: The Son of Alma, usually referred to as the Book of Alma , is one of the books that make up the Book of Mormon. The title refers to Alma the Younger, a prophet and "chief judge" of the Nephites. The Book of Alma is the longest of all the books of the Book of Mormon, consisting of 63 chapters. The book records the first 39 years of what the Nephites termed "the reign of the judges", a period in which the Nephite nation adopted a constitutional theocratic government in which the judicial and executive branches of the government were combined.

"Prealgebra is designed to meet scope and sequence requirements for a one-semester prealgebra course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small steps so that students gain confidence in their ability to succeed in the course. The order

of topics was carefully planned to emphasize the logical progression throughout the course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics."--BC Campus website.

Practical Guidelines for Supporting EDUCAIDS Implementation

BONUS: This edition contains an A Mighty Long Way discussion guide. When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the “Little Rock Nine,” as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history.
