Make America Healthy Again

As a teenager, Samantha Carlton used a career in modeling to break free from her painful childhood--walking away from her reckless twin sister, an alcoholic mother, and the boy she loved. Yet she never outran the guilt of abandoning her family. When the past shows up on her doorstep in the form of her late sister's daughter, Sam opens her home and her heart to the girl she never knew existed. But it's not so easy to face the man she left behind Sam had shattered Trevor Kincaid's heart, and he'd sought comfort in her sister's arms. But he'd pledged to shield his daughter, Grace, from the drama that followed the Carlton women. Now Grace has tracked down Sam, and Trevor is forced to deal with the one woman he wanted to forget. History has a way of repeating itself, and the sparks between Sam and Trevor reignite an old flame. But as much as Sam wants a new future, is walking away again easier than risking her heart for a second chance at love?

The Stand

NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash

on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Keeping You a Secret

Tell Me Why My Children Died tells the gripping story of indigenous leaders' efforts to identify a strange disease that killed

thirty-two children and six young adults in a Venezuelan rain forest between 2007 and 2008. In this pathbreaking book, Charles L. Briggs and Clara Mantini-Briggs relay the nightmarish and difficult experiences of doctors, patients, parents, local leaders, healers, and epidemiologists; detail how journalists first created a smoke screen, then projected the epidemic worldwide; discuss the Chávez government's hesitant and sometimes ambivalent reactions; and narrate the eventual diagnosis of bat-transmitted rabies. The book provides a new framework for analyzing how the uneven distribution of rights to produce and circulate knowledge about health are wedded at the hip with health inequities. By recounting residents' quest to learn why their children died and documenting their creative approaches to democratizing health, the authors open up new ways to address some of global health's most intractable problems.

Falling into Place

Stephen King's apocalyptic vision of a world blasted by plague and tangled in an elemental struggle between good and evil remains as riveting—eerily plausible—as when it was first published. The New York Times called it "the book that has everything. Adventure. Romance. Prophecy. Allegory. Satire. Fantasy. Realism. Apocalypse. Great!" Soon to be a limited series on CBS All Access A patient escapes from a biological testing facility, unknowingly carrying a deadly weapon: a mutated strain of super-flu that will wipe out 99 percent of the world's population within a few weeks. Those who remain are scared, bewildered, and in need of a leader. Two emerge—Mother Abigail, the benevolent 108-year-old woman who urges them to build a peaceful community in Boulder, Colorado; and Randall Flagg, the nefarious "Dark Man," who delights in chaos and violence. As the dark man and the peaceful woman gather power, the survivors will have to choose between them—and ultimately decide the fate of all humanity. (This edition includes all of the new and restored material first published in *The Stand: The Complete And Uncut Edition*.)

Tell Me Again

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

Ambition will fuel him. Competition will drive him. But power has its price.

My Overdue Book

With the heart of Judy Blume and wit of Alison Bechdel, Sara Farizan brings the authenticity and humour that distinguished her debut novel, *If You Could Be Mine*, to her second work of fiction for teens *Leila* has made it most of the way through high school without having a crush on anyone, which comes as something of a relief. Her Persian heritage makes her different enough; if word got out that Leila liked girls, life would be twice as hard. And what would her parents think? It's bad enough she's not even going to become a doctor. But when a sophisticated, beautiful new girl, Saskia, shows up, Leila starts to take risks she never dreamed of, especially when it looks as if the attraction between them is mutual. Struggling to sort out her growing feelings and Saskia's confusing signals, Leila confides in her old friend, Lisa, and grows closer to Tomas, whose comments about his own sexuality are frank, funny, wise and sometimes painful. Gradually, Leila begins to see that almost all of her classmates are more complicated than they first appear to be, and many are keeping fascinating secrets of their own.

He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

A Monster Calls

If You Could Be Mine

If Americans want to know why their health care is so costly and getting costlier, they need only look in the mirror. Americans are notoriously unhealthy—we eat too much, drink too much, and sit too much. When roughly 80 percent of cardiovascular disease and 40 percent of all cancer cases could be prevented by simple lifestyle changes, it is time to take a deeper look at the problem and ask who is truly responsible. Consider that:

- After seventy years of innovation, heart disease and cancer remain the top two causes of death in the United States.
- In 1960, health care spending was 5 percent of America's GDP; today, it is 17.5 percent.
- The government spends over \$1 trillion annually on health care.
- Nearly one in five American deaths is associated with poor diets.
- Simply reducing sodium intake by 1,200 mg per day could save up to \$20 billion a year in medical costs.

In *Make America Healthy Again*, Nicole Saphier, a Memorial Sloan Kettering physician, nationally recognized patient advocate, and media personality, reveals how individual negligence and big government incompetence have destroyed America's health care system. Combining historical events, economic trends, and essential lifestyle advice, with her unique perspective, she offers concrete solutions to address this epic problem. We don't need socialized medicine—we need to take better care of ourselves. By getting healthier and adopting preventative measures, Saphier believes, we can reduce the astronomical costs of treatment and improve overall care. The only way to lower medical costs for everyone is to stop incentivizing bad health decisions. Policies such as the Affordable Care Act and single-payer plans ignore something crucial to lowering the overall financial burden: personal responsibility. We can no longer expect doctors and the government to fix illnesses we have the power to prevent. Regardless of which health policy is adopted, our nation will flounder unless we take action. It is up to the American people to make America healthy again.

The nonlinear novel pieces together the short and devastating life of Meridian High's most popular junior girl. Mass, acceleration, momentum, force—Liz didn't understand it in physics, and even as her Mercedes hurtles toward the tree, she doesn't understand it now. How do we impact one another? How do our actions reverberate? What does it mean to be a friend? To love someone? To be a daughter? Or a mother? Is life truly more than cause and effect? The Odyssey of Homer

In search of a place to call home, thousands of Hmong families made the journey from the war-torn jungles of Laos to the overcrowded refugee camps of Thailand and onward to America. But lacking a written language of their own, the Hmong experience has been primarily recorded by others. Driven to tell her family's story after her grandmother's death, *The Latecomer* is Kao Kalia Yang's tribute to the remarkable woman whose spirit held them all together. It is also an eloquent, firsthand account of a people who have worked hard to make their voices heard. Beginning in the 1970s, as the Hmong were being massacred for their collaboration with the United States during the Vietnam War, Yang recounts the harrowing story of her family's captivity, the daring rescue undertaken by her father and uncles, and their narrow escape into Thailand where Yang was born in the Ban Vinai Refugee Camp. When she was six years old, Yang's family immigrated to America, and she evocatively captures the challenges of adapting to a new place and a new language. Through her words, the dreams, wisdom, and traditions passed down from her grandmother and shared by an entire community have finally found a voice. Together with her sister, Kao Kalia Yang is the founder of a company dedicated to helping immigrants with writing, translating, and business services. A graduate of Carleton College and Columbia University, Yang has recently screened *The Place Where We Were Born*, a film documenting the experiences of Hmong American refugees. Visit her

Cozier than a hand-knit gray cardigan and richer than Abuela's pastelito recipe, Namey takes you from Miami to Winchester, and leaves your heart belonging to both." —Rachael Lippincott, #1 New York Times bestselling author of *Five Feet Apart* Love & Gelato meets *Don't Date Rosa Santos* in this charming, heartfelt story following a Miami girl who

unexpectedly finds love—and herself—in a small English town. For Lila Reyes, a summer in England was never part of the plan. The plan was 1) take over her abuela's role as head baker at their panadería, 2) move in with her best friend after graduation, and 3) live happily ever after with her boyfriend. But then the Trifecta happened, and everything—including Lila herself—fell apart. Worried about Lila's mental health, her parents make a new plan for her: Spend three months with family friends in Winchester, England, to relax and reset. But with the lack of sun, a grumpy inn cook, and a small town lacking Miami flavor (both in food and otherwise), what would be a dream trip for some feels more like a nightmare to Lila...until she meets Orion Maxwell. A teashop clerk with troubles of his own, Orion is determined to help Lila out of her funk, and appoints himself as her personal tour guide. From Winchester's drama-filled music scene to the sweeping English countryside, it isn't long before Lila is not only charmed by Orion, but England itself. Soon a new future is beginning to form in Lila's mind—one that would mean leaving everything she ever planned behind.
