Water Born

Barbara Kingsolver's acclaimed international bestseller tells the story of an American missionary family in the Congo during a poignant chapter in African history. It spins the tale of the fierce evangelical Baptist, Nathan Price, who takes his wife and four daughters on a missionary journey into the heart of darkness of the Belgian Congo in 1959. They carry with them to Africa all they believe they will need from home, but soon find that all of it - from garden seeds to the King James Bible - is calamitously transformed on African soil. Told from the perspective of the five women, this is a compelling exploration of African history, religion, family, and the many paths to redemption. The Poisonwood Bible was nominated for the Pulitzer Prize in 1999 and was chosen as the best reading group novel ever at the Penguin/Orange Awards. It continues to be read and adored by millions worldwide.

The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting over the past few years, Naomi Klein introduced the term "disaster

capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

Seraphina

The first biography of the most popular anchor in cable news. Rachel Maddow has beaten the odds in a way that's novel in today's America: she uses her brain. In a world of banal and opinionated soundbites, she regularly crushes Sean Hannity's ratings thanks to her deeply researched reports. And in our highly polarized world, Maddow amiably engages the staunchest conservatives, while never hesitating to expose their light-on-facts defenses. As a result, she's become the top anchor for MSNBC and a beloved representative for all that progressive America holds dear. The news that Maddow was the first publicly-out lesbian to anchor a prime-time TV news show seemed almost anticlimactic to her millions of viewers, who will be surprised and intrigued by little-known details of her life, as written by New York Times bestselling biographer Lisa Rogak. Growing up in a conservative California town - and viewing herself as a perennial outsider - helped spark an early interest in activism. After attending Stanford and Oxford, she opted for a minimum-wage job as a radio DJ in a tiny Massachusetts market while finishing her Ph.D. She planned to pursue a career as an activist, but 9/11 changed all that, so she returned to local radio where she could help listeners by "explaining stuff." A stint at Air America raised her national profile, which led to her groundbreaking MSNBC show where she dissects the news of the day with an approach found nowhere else on TV.

What the financial diaries of working-class families reveal about economic stresses, why they happen, and what policies might reduce them Deep within the American Dream lies the belief that hard work and steady saving will ensure a comfortable retirement and a better life for one's children. But in a nation experiencing unprecedented prosperity, even for many families who seem to be doing everything right, this ideal is still out of reach. In *The Financial Diaries*, Jonathan Morduch and Rachel Schneider draw on the groundbreaking U.S. Financial Diaries, which follow the lives of 235 low- and middle-income families as they navigate through a year. Through the Diaries, Morduch and Schneider challenge popular assumptions about how Americans earn, spend, borrow, and save—and they identify the true causes of distress and inequality for many working Americans. We meet real people, ranging from a casino dealer to a street vendor to a tax preparer, who open up their lives and illustrate a world of financial uncertainty in which even limited financial success requires imaginative—and often costly—coping strategies. Morduch and Schneider detail what families are doing to help themselves and describe new policies and technologies that will improve stability for those who need it most. Combining hard facts with personal stories, *The Financial Diaries* presents an unparalleled inside look at the economic stresses of

today's families and offers powerful, fresh ideas for solving them.

She used those attributes to survive a divorce and poverty and to claw her way out of the lower middle class. But Mildred also had two weaknesses: a yen for shiftless men, and an unreasoning devotion to a monstrous daughter.

TIME'S #1 FICTION TITLE OF THE YEAR • NEW YORK TIMES NOTABLE BOOK OF 2018 FINALIST for the MAN BOOKER PRIZE and the NATIONAL BOOK CRITICS CIRCLE AWARD LONGLISTED for the ANDREW CARNEGIE MEDAL An instant New York Times bestseller from two-time National Book Award finalist Rachel Kushner, *The Mars Room* earned tweets from Margaret Atwood—"gritty, empathic, finely rendered, no sugar toppings, and a lot of punches, none of them pulled"—and from Stephen King—"The Mars Room is the real deal, jarring, horrible, compassionate, funny." It's 2003 and Romy Hall, named after a German actress, is at the start of two consecutive life sentences at Stanville Women's Correctional Facility, deep in California's Central Valley. Outside is the world from which she has been severed: her young son, Jackson, and the San Francisco of her youth. Inside is a new reality: thousands of women hustling for the bare essentials needed to survive; the bluffing and pageantry and casual acts of violence by guards and prisoners alike; and the deadpan absurdities of institutional living, portrayed with great humor and precision. Stunning and unsentimental, *The Mars Room* is "wholly authentic...profound...luminous" (*The Wall Street Journal*), "one of those books that enrage you even as they break your heart" (*The New York Times Book Review*, cover review)—a spectacularly compelling, heart-stopping novel about a life gone off the rails in contemporary America. It is audacious and tragic, propulsive and yet beautifully refined and "affirms Rachel Kushner as one of our best novelists" (*Entertainment Weekly*).
