their environment and their choices over the previous weeks, but their optimism has not been extinguished. There is hope that eventually Clayfield can be secured, but first, the undead must be eliminated and law and order must be restored. Unfortunately, the group might not ever get to implement their plan. Armed raiders, led by a man named Wheeler, strike the town to steal guns, food, and other supplies, but what they really want is women. Other groups in the town join forces and make themselves known, but true allies are hard to find. It becomes difficult to determine who the “good guys” really are. All the while, the zombies and the virus are a constant threat and are ready to claim anyone that makes a mistake. Then news filters in that something far worse could be on its way to Clayfield, and a decision must be made whether or not to abandon the town.

pandemic is spreading around the globe, and it's turning most of the residents of Clayfield into murderous zombies. Having no safe haven to which he can flee, the director decides to stick it out near his hometown and wait for the government to send help. But the disease and those infected are not his only concerns. He must also contend with armed gangs, strife within his group, his own lack of skills... and his conscience. There are tough decisions to be made if he is to survive. But if he is smart--and a little lucky--he can do more than survive; he can live like a king.

The King Of Clayfield

William Sydney Porter (September 11, 1862 - June 5, 1910), known by his pen name O. Henry, was an American short story writer. O. Henry's short stories are known for their wit, wordplay, warm characterization, and surprise endings. Cabbages and Kings (1904) Main article: Cabbages and Kings (literature) A series of stories which explore aspects of life in a paralytically sleepy Central American town, each advancing some aspect of the larger plot and relating back one to another in a complex structure. The larger, overriding plot slowly explicates its own background, even as it creates a town which is one of the most detailed literary creations of the period. In this book, O. Henry coined the term "banana republic".

Kate Losse was a grad school refugee when she

joined Facebook as employee #51 in 2005. Hired to answer user questions such as “What is a poke?” and “Why can’t I access my ex-girlfriend’s profile?” her early days at the company were characterized by a sense of camaraderie, promise, and ambition: Here was a group of scrappy young upstarts on a mission to rock Silicon Valley and change the world. Over time, this sense of mission became so intense that working for Facebook felt like more than just a job; it implied a wholehearted dedication to “the cause.” Employees were incentivized to live within one mile of the office, summers were spent carousing at the company pool house, and female employees were told to wear T-shirts with founder Mark Zuckerberg’s profile picture on his birthday. Losse started to wonder what this new medium meant for real-life relationships: Would Facebook improve our social interactions? Or would we all just adapt our behavior to the habits and rules of these brilliant but socially awkward Internet savants who have become today’s youngest power players? Increasingly skeptical, Losse graduated from customer service to the internationalization team—tasked with rolling out Facebook to the rest of the world— finally landing a seat right outside Zuckerberg’s office as his personal ghostwriter, the voice of the boy king. This book takes us for the first time into the heart of this fast-growing information empire, inviting us to high-level meetings with Zuckerberg; lifting the veil on long nights of relentless hacking and trolling; taking us behind the scenes of raucous company parties; and introducing us to the personalities, values, and secret ambitions of the floppy-haired boy wonders who are redefining the way we live, love, and work. By revealing here

what's really driving both the business and the culture of the social network, Losse answers the biggest question of all: What kind of world is Facebook trying to build, and is it the world we want to live in? ***

“Logging on to Facebook that first day, in retrospect, was the second, and to date the last, time that any technology has captured my imagination. The first was when Apple advertised the first laptop, the PowerBook, in the 1990s—with the words, ‘What’s on your PowerBook?’ “‘World domination,’ my teenaged self- answered instinctively. That’s what these devices were made for, I thought: so small and yet so powerful, so capable of linking quickly to and between everything else in the world. From the laptop, I could write and distribute information faster than ever before. It was intoxicating to imagine, and Facebook’s sudden, faithful rendering in 2004 of the physical world into the virtual felt the same. What could you do, now that you could see and connect to everyone and everything, instantly? “But what, also, could be diminished by such quick access? In the realm of ideas, it seemed easy: Who wouldn’t want to distribute and discuss ideas widely? However, in the realm of the personal, it seemed more complicated. What was the benefit of doing everything in public? Is information itself neutral, or do different types of information have different values, different levels of expectation of privacy, different implications for distribution and consumption? Should all information be shared equally quickly and without regard to my relationship to it? And, finally, and most important, as we ask whenever we begin a new relationship with anything, would this be good for me?” -- From the Introduction

From the author of *The Master of Ironwood*, *The Mistress of Rosedale* and many more titles comes *Ponygirl Tales*, a collection of short stories featuring ponygirls in all their sensuality. In *Justine's Pride* we discover Lady Ursula has cruel and torturous methods of training the stable full of girls, but is most harsh with Justine, as she is Lord Edgewater's favorite ponygirl. *Nipple Clamps and Whips* are her devices of choice. *Blaze at the Races* brings us the tale of Blaze and Randy, two gorgeous exotic dancers that have been asked to perform at a party, held by David Spaulding, a famous TV producer. The girls have no idea what's in store when they're led to get in their costumes for the Horse themed party. *Romans!* takes us to old-world Rome, where debauchery and deviancy reigns supreme. Marcus and Lucius attend Kimar's gathering to watch his famous chariot races. The chariots are pulled by a glamorous assortment of beauties, all spectacular in their own way. Geoffrey, Lady Ursula's nephew, sneaks out to the stables when he is certain no one will catch him. *Flare of Passion* is the story of Lady Ursula teaching Geoffrey how to properly touch and tantalize a dazzling ponygirl such as Flare, a redhead of magnificent beauty. With a finesse for description, Don Winslow is able to help the reader imagine exactly how these stunning women look in their harnesses, bits and straps of leather.
