The Atlas of Monsters

Since the nineteenth-century rediscovery of the Gilgamesh epic, we have known that the Bible imports narratives from

outside of Israelite culture, refiguring them for its own audience. Only more recently, however, has come the realization that Greek culture is also a prominent source of biblical narratives. *Greek Myth and the Bible* argues that classical mythological literature and the biblical texts were composed in a dialogic relationship. Louden examines a variety of Greek myths from a range of sources, analyzing parallels between biblical episodes and Hesiod, Euripides, Argonautic myth, selections from Ovid's *Metamorphoses*, and Homeric epic. This fascinating volume offers a starting point for debate and discussion of these cultural and literary exchanges and adaptations in the wider Mediterranean world and will be an invaluable resource to students of the Hebrew Bible and the influence of Greek myth.

The Holy Bible

Have dinosaurs always lived with man? The Bible clearly shows the answer is yes! God created these great creatures and gave man dominion over them. Esau domesticated them. Nehemiah rode them. Ancient armies appear to have fought from them or along side them. People used them for labor and even ate them! Behemoth, Tanniyn, Yownah, Chamowr—the pages of the Bible in its original languages finally reveals the truth about dinosaurs and man in some incredibly wonderful ways! The lying doctrines of evolution claiming “billions of years” and “man never saw a dinosaur” are shown to be what they are—lies designed to deceive men into believing the Bible is not true. Men today see the bones of these creatures in museums and wonder, “If the Bible is true, why are there no dinosaurs found in its pages?”. After many centuries of the

Bible existing in English, God gets the glory for His second-most magnificent creation next to man: the great dinosaurs!

The Mythical Creatures Bible

From controversial cryptozoologist and explorer Dr. Veronica Wigberht-Blackwater, *The Compendium of Magical Beasts* is a definitive field guide that explores the history, biology, and anatomy of mythological creatures. The Book of Mythical Beasts and Magical Creatures

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on

human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.
