and courageously exercised the power of dissent Before the U.S. Constitution had even been signed, soldiers and new veterans protested. Dissent, the hallowed expression of disagreement and refusal to comply with the government's wishes, has a long history in the United States. Soldier dissenters, outraged by the country's wars or egregious violations in conduct, speak out and change U.S. politics, social welfare systems, and histories. *I Ain't Marching Anymore* carefully traces soldier dissent from the early days of the republic through the wars that followed, including the genocidal "Indian Wars," the Civil War, long battles against slavery and racism that continue today, both World Wars, Korea, Vietnam, the Cold War, and contemporary military imbroglios. Acclaimed journalist Chris Lombardi presents a soaring history valorizing the brave men and women who spoke up, spoke out, and talked back to national power. Inviting readers to understand the texture of dissent and its evolving and ongoing meaning, *I Ain't Marching Anymore* profiles conscientious objectors including Frederick Douglass's son Lewis, Evan Thomas, Howard Zinn, William Kunstler, and Chelsea Manning, adding human dimensions to debates about war and peace. Meticulously researched, rich in characters, and vivid in storytelling, *I Ain't Marching Anymore* celebrates the sweeping spirit of dissent in the American tradition and invigorates its meaning for new risk-taking dissenters.

The beloved New York Times columnist "inspires women to embrace aging and look at it with a new sense of hope" in this lively, fascinating, eye-opening look at women and aging in America (Parade Magazine). "You're not getting older, you're getting better," or so promised the famous 1970's ad -- for women's hair dye. Americans have always had a complicated relationship with aging: embrace it, deny it, defer it -- and women have been on the front lines of the battle, willingly or not. In her lively social history of American women and aging, acclaimed New York Times columnist Gail Collins illustrates the ways in which age is an arbitrary concept that has swung back and forth over the centuries. From Plymouth Rock (when a woman was considered marriageable if "civil and under fifty years of age"), to a few generations later, when they were quietly retired to elderdom once they had passed the optimum age for reproduction, to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated, to the first female nominee for president, American attitudes towards age have been a moving target. Gail Collins gives women reason to expect the best of their golden years.

The Sellout

Created by the most respected American publisher of dictionaries and supervised by the editor Philip Gove, Webster's Third broke with tradition, adding thousands of new words and eliminating "artificial notions of correctness," basing proper usage on how language was actually spoken. The dictionary's revolutionary style sparked what David Foster Wallace called "the Fort Sumter of the Usage Wars." Editors and scholars howled for Gove's blood, calling him an enemy of clear thinking, a great relativist who was trying to sweep the English language into chaos. Critics bayed at the dictionary's permissive handling of ain't. Literary intellectuals such as Dwight Macdonald believed the dictionary's scientific approach to language and its abandonment of the old standard of usage represented the unraveling of civilization. Entertaining and erudite, *The Story of Ain't* describes a great societal metamorphosis, tracing the fallout of the world wars, the rise of an educated middle class, and the emergence of America as the undisputed leader of the free world, and illuminating how those forces shaped our language. Never before or since has a dictionary so embodied the cultural transformation of the United States.

California's Newport Beach is her family's latest perch, and she's determined to shuck her brainy loner persona and start afresh with a new Brady Bunch name—Cindy. Even mood rings and puka shell necklaces can't distract Cindy from the anti-Iran sentiments that creep way too close to home. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy—two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find

Newsweek, The Denver Post, BuzzFeed, Kirkus Reviews, and Publishers Weekly Named a "Must-Read" by Flavorwire and New York Magazine's "Vulture" Blog A biting satire about a young man's isolated upbringing and the race trial that sends him to the Supreme Court, Paul Beatty's *The Sellout* showcases a comic genius at the top of his game. It challenges the sacred tenets of the United States Constitution, urban life, the civil rights movement, the father-son relationship, and the holy grail of racial equality—the black Chinese restaurant. Born in the "agrarian ghetto" of Dickens—on the southern outskirts of Los Angeles—the narrator of *The Sellout* resigns himself to the fate of lower-middle-class Californians: "I'd die in the same bedroom I'd grown up in, looking up at the cracks in the stucco ceiling that've been there since '68 quake." Raised by a single father, a controversial sociologist, he spent his childhood as the subject in racially charged psychological studies. He is led to believe that his father's pioneering work will result in a memoir that will solve his family's financial woes. But when his father is killed in a police shoot-out, he realizes there never was a memoir. All that's left is the bill for a drive-thru funeral. Fueled by this deceit and the general disrepair of his hometown, the narrator sets out to right another wrong: Dickens has literally been removed from the map to save California from further embarrassment. Enlisting the help of the town's most famous resident—the last surviving Little Rascal, Hominy Jenkins—he initiates the most outrageous action conceivable: reinstating slavery and segregating the local high school, which lands him in the Supreme Court.

This classic text addresses one of the most important issues in modern social theory and policy: how social inequality is reproduced from one generation to the next. With the original 1987 publication of *Ain't No Makin' It*, Jay MacLeod brought us to the Clarendon Heights housing project where we met the 'Brothers' and the 'Hallway Hangers'. Their story of poverty, race, and defeatism moved readers and challenged ethnic stereotypes. MacLeod's return eight years later, and the resulting 1995 revision, revealed little improvement in the lives of these men as they struggled in the labor market and crime-ridden underground economy. The third edition of this classic ethnography of social reproduction brings the story of inequality and social mobility into today's dialogue. Now fully updated with thirteen

Winner of the 2018 Louisiana Literary Award given by the Louisiana Library Association For centuries, outlanders have openly denigrated Louisiana's coastal wetlands residents and their stubborn refusal to abandon the region's fragile prairies tremblants despite repeated natural and, more recently, man-made disasters. Yet, the cumulative environmental knowledge these wetlands survivors have gained through painful experiences over the course of two centuries holds invaluable keys to the successful adaptation of modern coastal communities throughout the globe. As Hurricane Sandy recently demonstrated, coastal peoples

everywhere face rising sea levels, disastrous coastal erosion, and, inevitably, difficult lifestyle choices. Along the Bayou State's coast the most insidious challenges are man-made. Since channelization of the Mississippi River in the wake of the 1927 flood, which diverted sediments and nutrients from the wetlands, coastal Louisiana has lost to erosion, subsidence, and rising sea levels a land mass roughly twice the size of Connecticut. State and national policymakers were unable to reverse this environmental catastrophe until Hurricane Katrina focused a harsh spotlight on the human consequences of eight decades of neglect. Yet, even today, the welfare of Louisiana's coastal plain residents remains, at best, an afterthought in state and national policy discussions. For coastal families, the Gulf water lapping at the doorstep makes this morass by no means a scholarly debate over abstract problems. Ain't There No More renders an easily read history filled with new insights and possibilities. Rare, previously unpublished images documenting a disappearing way of life accompany the narrative. The authors bring nearly a century of combined experience to distilling research and telling this story in a way invaluable to Louisianans, to policymakers, and to all those concerned with rising sea levels and seeking a long-term solution.

Gordon Mitchell had the good life all planned out—a million and a half in embezzled cash, a plane waiting in Mexico to take him far away, and a sexy little thing named Janey to call his own. At least it was before an Ivy Leaguer-turned-highway robber named Spike Jones held him up, fell in love with Wanda, and shanghaied his RV. Now it's not so simple. In the long decade between the mid-fifties and the late sixties, jazz was changing more than its sound. The age of Max Roach's Freedom Now Suite, John Coltrane's A Love Supreme, and Charles Mingus's The Black Saint and the Sinner Lady was a time when jazz became both newly militant and newly seductive, its example powerfully shaping the social dramas of the Civil Rights movement, the Black Power movement, and the counterculture. Freedom Is, Freedom Ain't is the first book to tell the broader story of this period in jazz--and American--history.

around reporters, but Cornejo Villavicencio has unmatched access to their stories. Her work culminates in a stunning, essential read for our times. Born in Ecuador and brought to the United States when she was five years old, Cornejo Villavicencio has lived the American Dream. Raised on her father's deliveryman income, she later became one of the first undocumented students admitted into Harvard. She is now a doctoral candidate at Yale University and has written for The New York Times. She weaves her own story among those of the eleven million undocumented who have been thrust into the national conversation today as never before. Looking well beyond the flashpoints of the border or the activism of the DREAMERS, Cornejo Villavicencio explores the lives of the undocumented as rarely seen in our daily headlines. In New York we meet the undocumented workers who were recruited in the federally funded Ground Zero cleanup after 9/11. In Miami we enter the hidden botanicas, which offer witchcraft and homeopathy to those whose status blocks them from any other healthcare options. In Flint, Michigan, we witness how many live in fear as the government issues raids at grocery stores and demands identification before offering life-saving clean water. The Undocumented Americans powerfully reveals the hidden corners of our nation of immigrants. Karla Cornejo Villavicencio brings to light remarkable stories of hope and resilience, and through them we come to understand what it truly means to be American.

From farmer Joel Salatin's point of view, life in the 21st century just ain't normal. In **FOLKS, THIS AIN'T NORMAL**, he discusses how far removed we are from the simple, sustainable joy that comes from living close to the land and the people we love. Salatin has many thoughts on what normal is and shares practical and philosophical ideas for changing our lives in small ways that have big impact. Salatin, hailed by the New York Times as "Virginia's most multifaceted agrarian since Thomas Jefferson [and] the high priest of the pasture" and profiled in the Academy Award nominated documentary *Food, Inc.* and the bestselling book *The Omnivore's Dilemma*, understands what food should be: Wholesome, seasonal, raised naturally, procured locally, prepared lovingly, and eaten with a profound reverence for the circle of life. And his message doesn't stop there. From child-rearing, to creating quality family time, to respecting the environment, Salatin writes with a wicked sense of humor and true storyteller's knack for the revealing anecdote. Salatin's crucial message and distinctive voice--practical, provocative, scientific, and down-home philosophical in equal measure--make **FOLKS, THIS AIN'T NORMAL** a must-read book.
