Stern's pathbreaking video-based research into the intimate complexities of mother-infant interaction has had an enormous impact on psychotherapy and developmental psychology. Now a noted authority on early development, Stern first reviewed his unique methods and observations in *The First Relationship*. Intended for parents as well as for therapists and researchers, it offers a lucid and nontechnical overview of the author's key ideas and encapsulates the major themes of his subsequent books.

From its earliest manifestations on the street corners of nineteenth-century Buenos Aires to its ascendancy as a global cultural form, tango has continually exceeded the confines of the dance floor or the music hall. In *Tango Lessons*, scholars from Latin America and the United States explore tango's enduring vitality. The interdisciplinary group of contributors—including specialists in dance, music, anthropology, linguistics, literature, film, and fine art—take up a broad range of topics. Among these are the productive tensions between tradition and experimentation in tango nuevo, representations of tango in film and contemporary art, and the role of tango in the imagination of Jorge Luis Borges. Taken together, the essays show that tango provides a kaleidoscopic perspective on Argentina's social, cultural, and intellectual history from the late nineteenth to the early twenty-first centuries. Contributors. Esteban Buch, Oscar Conde, Antonio Gómez, Morgan James Luker, Carolyn Merritt, Marilyn G. Miller, Fernando

Rosenberg, Alejandro Sustí
