Long Term Care Survey

The complete guide for streamlining and improving nursing documentation for virtually every system. Nurses will find instructions for virtually every common and not-so-common charting method. From progress notes to protocols, there is a wealth of easy-to-follow examples throughout the book. Includes JCAHO-approved nursing abbreviations, ANA standards of practice, and JCAHO and Medicare guidelines for nursing documentation.

Document Smart

(5E 1992; Select List Nursing) Covers homeostasis stress & adaptation/culture & ethnicity/wound care/oral medications.

Nursing Decentralization

The Fifth Edition of Nursing Care Plans and Documentation provides nurses with a comprehensive guide to creating care plans and effectively documenting care. This user-friendly resource presents the most likely diagnoses and collaborative problems with step-by-step guidance on nursing action, and rationales for interventions. New chapters cover moral distress in nursing, improving hospitalized patient outcomes, and nursing diagnosis risk for compromised human dignity. The book includes over 70 care plans that translate theory into clinical practice. Online Tutoring powered by Smarthinking--Free online tutoring, powered by Smarthinking, gives students access to expert nursing and allied health science educators whose mission, like yours, is to achieve success. Students can access live tutoring support, critiques of written work, and other valuable tools.

The Johns Hopkins Hospital Surgical Nursing Patient Care Guidelines

A practical guide to the clinical decision-making skills essential for effective respiratory care practice across the continuum of health care. Features actual clinical cases for critical analysis, patient assessment, clinical application, decision-making, and discussion. Also addresses managed care, health care costs, ethics, and alternative site care.

Home Health Nursing Manual

'A Fantastic Book. Every Nurse should own one.' 'Amazing must have BIBLE for every student nurse and nurse :).'
'The best investment I've ever made and will be useful for many, many years.'
'This book is perfect to learn about a variety of clinical procedures to help you improve your practice, making it safe and ensuring it is evidence based.'
Amazon readers The Royal Marsden Manual of Clinical Nursing Procedures has been the number one choice for nurses since it first

published, over 30 years ago. One of the world's most popular books on clinical skills and procedures, it provides detailed procedure guidelines based on the latest research findings and expert clinical advice, enabling nurses and students to deliver clinically effective patient-focused care. The ninth edition of this essential, definitive guide, written especially for pre-registration nursing students, now includes a range of new learning features throughout each chapter that have been designed to support student nurses to support learning in clinical practice. Providing essential information on over 200 procedures, this manual contains all the skills and changes in practice that reflect modern acute nursing care. Learning features in the book include: 'Learning outcomes'- a summary of the topics covered in a chapter. 'Check your knowledge'- lets you check how much you know about the topic already. 'Learning in practice'- asks you to consider issues within your practice environment. 'Case studies'- provide learning around a particular patient case. 'Scenarios'- challenge you to think how you would act in a given situation. 'Key point boxes' - highlight the essential points to remember. 'Learning exercises'- test yourself after each chapter.

Nursing Care Plans & Documentation

Clearly and concisely provides guidelines for appropriate and careful documentation of care. Accurate documentation shows managed care companies that patients receive adequate care and that health care providers are controlling costs and resources. In addition, it plays a large role in how third party payors make payment or denial decisions. This new edition includes the latest changes and trends in nursing documentation as related to the newly restructured healthcare environment. Special attention focuses on the latest documentation issues specific to specialty settings, such as acute care, home care, and long-term care, and a variety of clinical specialties, such as obstetrics, pediatrics, and critical care.--Amazon.com.

Documenting Care

This unique, state-of-the-art online resource provides students with the core knowledge needed to master essential nursing fundamentals and procedures. It includes more than 275 basic, intermediate, and advanced procedures in written or video form. The procedures presented match the Fundamentals of Nursing, Sixth Edition table of contents. Also, it includes downloadable procedures checklists for use in the nursing skills lab or on the job. Plus, numerous case studies that strengthen students' critical thinking skills by asking them how they would perform procedures, communicate with clients, and manage unexpected outcomes. Plus, additional NCLEX®-style questions allow students to test their mastery of key concepts. Students receive an individualized learning plan based on their results, pointing them towards multimedia materials they need to gain proficiency in procedures and concepts of fundamentals.

Long-term Care Survey

From the nation's leading rehabilitation center comes this manual of basic patient care procedures. This expanded edition is updated to reflect current changes and trends in health care today such as outcomes measurement, managed care/case management, and interdisciplinary practice and outcomes. Infection control content is updated to reflect new research, and updated research has been incorporated into all chapters.

Critical Care Skills

This book is written by a multidisciplinary team of authors to give a unique perspective of this increasingly widely-used technique.
