Offering a panoramic view of the history and culture of food and drink in America with fascinating entries on everything from the smell of asparagus to the history of White Castle, and the origin of Bloody Marys to jambalaya, the Oxford Companion to American Food and Drink provides a concise, authoritative, and exuberant look at this modern American obsession. Ideal for the food scholar and food enthusiast alike, it is equally appetizing for anyone fascinated by Americana, capturing our culture and history through what we love most--food! Building on the highly praised and deliciously browseable two-volume compendium the Oxford Encyclopedia of Food and Drink in America, this new work serves up everything you could ever want to know about American consumables and their impact on popular culture and the culinary world. Within its pages for example, we learn that Lifesavers candy owes its success to the canny marketing idea of placing the original flavor, mint, next to cash registers at bars. Patrons who bought them to mask the smell of alcohol on their breath before heading home soon found they were just as tasty sober and the company began producing other flavors. Edited by Andrew Smith, a writer and lecturer on culinary history, the Companion serves up more than just trivia however, including hundreds of entries on fast food, celebrity chefs, fish, sandwiches, regional and ethnic cuisine, food science, and historical food traditions. It also dispels a few

commonly held myths. Veganism, isn't simply the practice of a few "hippies," but is in fact wide-spread among elite athletic circles. Many of the top competitors in the Ironman and Ultramarathon events go even further, avoiding all animal products by following a strictly vegan diet. Anyone hungering to know what our nation has been cooking and eating for the last three centuries should own the Oxford Companion to American Food and Drink.

clear sky, bright sunshine and warmth. The expected high temperature today is 71 degrees Fahrenheit up from this mornings 65 but nowhere near the 91 degrees that thermometers would normally register on Fathers day when I was a kid. Our children have invited us over to celebrate, since our oldest son is now a father himself, and as my wife and I drove over to their duplex, I realized that three generations of my family will be there and it became clear to me that the time had come for me to provide them with a biographical accounting that will fill in some blanks about their paternal roots and give them a clearer understanding of one half of their cultural heritage. It may have appeared to our children during their short childhood visits to the ancestral homeland of their father, that their aunts, uncles and cousins lived differently, and were apparently not as sophisticated as the people with whom they interacted in Berkeley. They were too young to appreciate the fact that their aunts and uncles had successful careers as teachers, master welders, policemen, grocery chain manager, and personal assistant to the President of their countrys Senate. They probably judged that their cousins toys were comparatively primitive viewed against the electronic marvels that they were accustomed to, nor were they as numerous. Television reception there was deplorable compared to what they were used to at home, and the duration of programming was limited, but academically, their young relatives skills were comparable to their own. On one occasion they were awed by the ability of a few of their cousins to build a functional lean-to that fitted into the games they were
