BONUS: This edition contains an A Mighty Long Way discussion guide. When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the “Little Rock Nine,” as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history.

Integrated Chinese, Level 1

Jeff Anderson and literacy coach Whitney La Rocca take you into primary and intermediate classrooms where students are curious about language, engage with the world around them, and notice and experiment with the conventions all writers use. Instead of chanting grammar rules or completing countless convention worksheets, we invite young writers to explore conventions as special effects devices that activate meaning. Our students study authentic texts and come to recognize these “patterns of power”—the essential grammar conventions that readers and writers require to make meaning. The first part of the book introduces a vibrant approach to grammar instruction and sets up what you need to immerse

yourself in the Patterns of Power process, inviting students to experiment and play with language. The second part of the book offers over seventy practical, ready-to-use lessons, including: Extensive support materials Over 100 mentor sentences, curated for grades 1-5 Student work samples Tips and power notes to facilitate your own knowledge and learning Examples for application In Patterns of Power Jeff and Whitney suggest that taking just five minutes from your reading workshop and five minutes from your writing workshop to focus on how the conventions connect reading and writing will miraculously affect your students' understanding of how language works for readers and writers.

All the People

Great Discoveries & Amazing Adventures will inform, entertain, and absorb the whole family. Containing stunning illustrations and providing fascinating insights into amazing discoveries and their worldwide impact, it is a fresh take on a wide range of subjects—from the discovery of Machu Picchu, a hidden Inca city in the Andes mountains, to the unearthing of the remains of China's Terra-Cotta Army, long buried since the 200s B.C. The book is divided into four chapters: Nature's marvels (such as the coelacanth, a living fossil from the sea); Earth's riches (such as the diamond mines in Kimberley, South Africa); Lost wonders (such as the ancient cave paintings in Lascaux, France); and Hoaxes and frauds. This final chapter looks at the ways in which people's hunger for discovery can take an unusual twist, for example when experts are deceived by a hoax or when new research sheds surprising light on a familiar object. Great Discoveries & Amazing Adventures is introduced by a foreword from explorer and scientist Dr. Robert Ballard (National Geographic Explorer-in-Residence), and a feature spread is dedicated to some of his discoveries.
