Is There Really a Human Race?

Yes, God Really Is 'Up There ' provides answers for many of life's questions. It has been written by a man whose earliest childhood memory is of shivering in the winter cold while trying to sleep on a bale of hay in a drafty barn somewhere in war-torn (WWII) Europe. His Mother was doing her best to comfort him, all the while listening to the bombers roaring over-head, and wondering what had happened to her husband, the boy's Father. It later came to light that he had been captured by Russian soldiers, and was bound for the labor camps of Siberia. How the Father escaped, found his wife and child, and once reunited, they came to the United States, is a story for another day. Suffice it to say that, bringing only their clothes and old pots and pans, upon arrival they began to live the American Dream. (For more, read About The Author at the end of the book.) The American Dream abounds with opportunities and obstacles for the native-born and immigrant alike; the author has been no exception - he encountered both. Amidst the victories and defeats, he came to realize that God Almighty really was and is up there, ever vigilant and always looking out for him. That very God can do the same for you. If you're not sure that God really is up there, or you are going through tough times, you need to read this book.

In this article, the author discusses the necessity of a 1st cause for there to be consciousness and further expands on what that 1st cause may be. Author Bio: Christopher Alan Anderson (1950 -) received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental/romantic tradition, that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love. Mr. Anderson began these writings in 1971. The first writings were published in 1985. On a personal note, when Mr. Anderson was asked to describe the writings and what he felt their message was he responded, "Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now." Jesus divided the world into two groups—those who follow him and those who don't. But what happens when someone thinks he or she is a Christian, but isn't?

With his witty, engaging style, Mike McKinley takes readers on a journey of what it means to be a Christian. He asserts that “manipulative evangelism techniques and a poor understanding of the gospel have resulted in an abundance of professing Christians who have no idea what it means to follow Christ.” Each chapter title begins with “You’re not a Christian [if/when/just because you]” As he surveys what it means to be Christian, McKinley offers criteria for evaluating one’s standing before God. Readers are guided through a series of challenges to reflect, repent, remember, and report to another person. *Am I Really a Christian?* ends with chapters on salvation and the local church. This unique book is written for nominal or new Christians and can be used in personal or small-group study.

This is a book about the power of poetry to speak about the central themes of what it is to be a human being. The first part is an anthology of specially selected poems. The second part provides detailed notes for teachers on how to use these poems in the classroom. The poems in the book are about morality: how we get on, or don't get on, with each other; how we feel when we are alone; the destruction of the world we live in; childhood; celebration; fear; death; and mystery. Sharing these poems helps us to understand ourselves, and to express ourselves. The poems are selected to help to break down the barriers between curriculum subjects, and to be especially useful for religious education and personal, social and moral education. There is a mixture of the classic, the traditional and the new here, but all of the selected poems show the true power of poetry to express feelings about things that matter.

Endymion, a Poetic Romance

I am again Marcia Martin Ensley. I said again because this is my second published work. My interest and desire, at this time, is to understand the why of death. Death is a phenomenon. It is forever with us. It does not ask for our permission; and we dont, for the most part, welcome it. Death represents an absence to life, yet death is always present with us. The National Center for Health Statistics report that there are millions of deaths a year. Why? Sure, someone probably had a heart attack; someone had AIDS, cancer or perhaps an accident in a vehicle. But still, WHY? As a pastor, I have attended many funerals and have been at the bedside

with family members whose loved ones died. During those times, my heart is saddened. If I knew them personally, I am saddened that they are gone. If I didn't know them personally, I am saddened when I see the tears and grief of loved ones left behind. Of course, as a pastor, the loss is great because that loss represents a sheep gone from the fold. God, for me, is all knowing and all powerful. Why doesn't God just step in and stop death? Why does it seem death wins? Stay tuned. The pages to follow will address these questions.

Free Will: A Very Short Introduction

Is there really a human race? Is it going on now all over the place? When did it start? Who said, "Ready, Set, Go"? Did it start on my birthday? I really must know. With these questions, our hero's imagination is off and running. Is the human race an obstacle course? Is it a spirit? Does he get his own lane? Does he get his own coach? Written with Jamie Lee Curtis's humor and heart and illustrated with Laura Cornell's worldly wit, *Is There Really a Human Race?* Is all about relishing the journey and making good choices along the way—because how we live and how we love is how we learn to make the world a better place, one small step at a time.

Yes, God Really Is Up There!

The gripping tale of one man's survival in the wilderness. On the night of April 9, 1997, Warren Macdonald took his final step as a "complete" human being. A fit and experienced hiker, Macdonald had set out with a new Dutch companion to make the grueling climb to the top of Australia's spectacular Mount Bowen. They lost their way after a full day on the trail and pitched camp beside a narrow creek. Shortly after dusk, as he scrambled up an embankment away from the creek in the darkness, Macdonald was horrified to hear a loud crack. A second later he was lying in the creek bed, both his legs pinned by a giant boulder. What had begun as

a two-day adventure had suddenly turned into a nightmare. Try as they might, the two men could not budge the massive piece of granite. There was nothing for it: Macdonald's companion would have to hike out at dawn and make a solitary, perilous descent—a journey of at least eight hours—to get help. A gifted storyteller, Macdonald captures the terror and high drama of his hours alone in the wilderness, but he also writes eloquently about his life both before and after the accident.

Cloning, embryo research and genetic modification are three of the most controversial issues of our time. Is it ethical to use cloning as a means of reproduction? Are embryos people? Is there a difference between removing genetic disease and creating «designer babies»? This book will attempt to show that these and other problems are ultimately resolvable, given careful and unbiased application of established ethical principles, many of which underlie common morality. These principles, when applied to the problems of the new genetic technologies, form the basis of a new genetic morality. This book applies established principles of biomedical ethics to the new genetic technologies and examines the ethical implications of reproductive and therapeutic cloning, genetic modification and stem cell research from a deontological and a rule-utilitarian perspective. Finally, it seeks to establish what, if anything, is wrong with each of these practices, and why.

What Is Really Good?

A fresh argument for rioting and looting as our most powerful tools for dismantling white supremacy. Looting--a crowd of people publicly, openly, and directly seizing goods--is one of the more extreme actions that can take place in the midst of social unrest. Even self-identified radicals distance themselves from looters, fearing that violent tactics reflect badly on the broader movement. But Vicky Osterweil argues that stealing goods and destroying property are direct, pragmatic strategies of wealth redistribution and improving life for the working class--not to mention the brazen messages these methods send to the police and the state. All our beliefs about the innate righteousness of property and ownership, Osterweil explains, are built on the history of anti-Black, anti-Indigenous oppression. From slave revolts to labor strikes to the modern-day movements for climate change, Black lives, and police abolition, Osterweil makes a convincing case for rioting and looting as weapons that bludgeon the status quo while uplifting the poor and marginalized. *In Defense of Looting* is a history of violent protest sparking social change, a compelling reframing of revolutionary activism, and a practical vision for a dramatically restructured society.

The Loss of Sadness

LOS ANGELES TIMES BESTSELLER The problem is not overpolicing, it is policing itself. Why we need to defund the police and how we get there. Recent weeks have seen an explosion of protest against police brutality and repression. Among

activists, journalists and politicians, the conversation about how to respond and improve policing has focused on accountability, diversity, training, and community relations. Unfortunately, these reforms will not produce results, either alone or in combination. The core of the problem must be addressed: the nature of modern policing itself. This book attempts to spark public discussion by revealing the tainted origins of modern policing as a tool of social control. It shows how the expansion of police authority is inconsistent with community empowerment, social justice— even public safety. Drawing on groundbreaking research from across the world, and covering virtually every area in the increasingly broad range of police work, Alex Vitale demonstrates how law enforcement has come to exacerbate the very problems it is supposed to solve. In contrast, there are places where the robust implementation of policing alternatives—such as legalization, restorative justice, and harm reduction—has led to a decrease in crime, spending, and injustice. The best solution to bad policing may be an end to policing.

Is It Really Haunted?

Is There Really Sex After Kids?

Questions rise in each of our hearts as we recall our favorite stories of ghosts, and

haunted locations in our world. What is causing the unexplained seeming presence of spirits in our world?

There There

Consciousness and a 1st Cause

'The Loss of Sadness' argues that the increased prevalence of major depressive disorder is due not to a genuine rise in mental disease, as many claim, but to the way that normal human sadness has been 'pathologised' since 1980.

Genetic Morality

Every day we seem to make and act upon all kinds of free choices - some of them trivial, and some so consequential that they may change the course of our life, or even the course of history. But are these choices really free? Or are we compelled to act the way we do by factors beyond our control? Is the feeling that we could have made different decisions just an illusion? And if our choices are not free, why should we be held morally responsible for our actions? This Very Short Introduction, written by a leading authority on the subject, looks at a range of

issues surrounding this fundamental philosophical question, exploring it from the ideas of the Greek and medieval philosophers through to the thoughts of present-day thinkers. It provides a interesting and incisive introduction to this perennially fascinating subject. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Yes, Dear, There Really Is a Devil

Stuart brings his story to the present time in his final book of this trilogy a time when little girls wore dresses and hats to church, the United States was experiencing growing pains of its own and history, culture, and technology were evolving into what would become present-day America. Beginning in 1957, this book chronicles Stuart's life as he, along with several thousand other officers, were RIFed. He then enlisted as a sergeant and began a new life at Fort Bliss in El Paso, Texas. During this time, he would have a 14 months unaccompanied tour to Korea. Returning to Fort Bliss, he would eventually retire as a Lieutenant Colonel in El Paso and enter the civilian world to become a successful commercial realtor. El Paso remains his home to this day. As son, husband, father, grandfather, and now great-grandfather, he looks back at the shaping of his own life and the tumultuous

times in which he has lived. His keen insight and observations of this historical period provide an intimate glimpse of the world as it has changed and evolved throughout the past several decades.

Is God Really Good? The Naked Truth Bible Series

What is the real truth about the Bible? Does it have relevance beyond the world of religion? What about the God of the Bible? Is He real? Why should anyone care? If He is real, what is He like? This is just a sampling of what appears to be an endless list of questions about the Bible, about God. And an answer to any of these questions just seems to raise even more questions. Is the most published book of all time destined to remain a mystery? Is there a place for the Bible during modern times? Maybe it's supposed to be used like a dictionary or encyclopedia, only to be accessed when we are missing an answer to a question or situation. Or, maybe it's here just for those who feel a need for some sort of religious experience. The Naked Truth Bible Series will explore these and other questions by delving deep into the Bible, using the information in both the Old and New Testaments, in an attempt to break through the log jam of misleading and confusing information about its content and purpose. Using a series of single subject books, The Naked Truth Bible Series will address individual subjects using simple, readable content that we lead you step by step to a deeper understanding of the Bible. Each book building on the previous book or books in the series, all designed to help you develop a well-

rounded view of both God and the Bible.

Triggered

God Really Is a Woman When we say God is really a woman we have come to this conclusion by both Scriptural proof and logic. God is perfect in all things. Therefore He is perfect in logic. We see in the Scriptures that God is three persons: the

Father, the Son, and the Holy Spirit. Jesus speaking to His twelve apostles said in Matthew 28, "Go ye into all the world and preach the Gospel, baptizing in the name of the Father, and of the Son, and of the Holy Ghost." The popular belief is that the Virgin Mary is the mother of Jesus. The scriptures show that the Holy Spirit is the Mother which we will see. The Holy Spirit descended from the clouds in the form of a dove. What a wonderful, beautiful picture of the blessed Holy Spirit Mother. We cannot learn the truth of God from the manuscripts. A lifetime of study of them wouldn't reveal the truth of the Holy Spirit. It has been lost in the translations. But not in God's Word. Jesus said, "Heaven and earth will pass away, but my word will not pass away." The Father, the Son, and the Holy Spirit, (Father, Son, Mother), is a perfect picture and example of a perfect family by which every family should strive to imitate.

Will There Really Be a Morning?

The idea for this book came while trying to explain the reality of the devil to my four-year-old son. After looking around for a book and not finding what I was looking for, I decided to put something together myself. After putting thoughts down on paper and drawing stick figures, I was so very blessed to meet a talented artist named Erin McKay and a devoted Christian author named Johnnie Coley, who helped me move forward with my ideas. God has designed this book to be a blessing for you, the reader and all children. To God be the glory! ~ Chris Rader
