Since the original prewar translation there has been no completely new rendering of the French original into English. This translation brings to the fore a more sharply engaged, comic and lucid Proust. IN SEARCH OF LOST TIME is one of the greatest, most entertaining reading experiences in any language. As the great story unfolds from its magical opening scenes to its devastating end, it is the Penguin Proust that makes Proust accessible to a new generation. Each volume is translated by a different, superb translator working under the general editorship of Professor Christopher Prendergast, University of Cambridge.

From New York Times bestselling author, J. Daniels, comes a sexy new STANDALONE novel. For the past nine years, I've kept my heart as far away from my dick as possible. Those two can't be anywhere near each other. They don't play nice, and one of them undoubtedly winds up getting hurt. Not my dick. My dick is good. The women I take home know exactly what they're getting from me—sex. Nothing more. At least, that's what's supposed to happen. The sweet brunette from Kentucky I set my sights on tonight shouldn't have been any different. I had her right where I wanted her. Where I needed her. But when my past comes walking into McGill's pub, the woman in my arms decides to take things to a whole new level, putting me into a situation I never saw coming. My heart is about to get f\*\*ked. My dick can sit this one out.

Fascinating narrative science that explores the next frontier in medicine and genetics through the very personal prism of the children and families gene therapy has touched. Eight-year-old Corey Haas was nearly blind from a hereditary disorder when his sight was restored through a delicate procedure that made medical history. Like something from a science fiction novel, doctors carefully injected viruses bearing healing genes into the DNA of Corey's eyes—a few days later, Corey could see, his sight restored by gene therapy. THE FOREVER FIX is the first book to tell the fascinating story of gene therapy: how it works, the science behind it, how patients (mostly children) have been helped and harmed, and how scientists learned from each trial to get one step closer to its immense promise, the promise of a "forever fix," - a cure that, by fixing problems at their genetic root, does not need further surgery or medication. Told through the voices of the children and families who have been the inspiration, experimental subjects, and successes of genetic science, THE FOREVER FIX is compelling and engaging narrative science that tells explores the future of medicine as well as the families and scientists who are breaking new ground every day.

"Widely recognized as the major novel of the twentieth century" -Harold Bloom ; Literary Critic Swann's Way is the first volume of seven of the series In Search of Lost Time written by Marcel Proust (1871-1922). It is considered to be his most prominent work, known both for its length and its theme of involuntary memory, the most famous example being the "episode of the madeleine" which occurs early in Swann's Way. In Search of Lost Time follows the narrator's recollections of childhood and experiences into adulthood during late 19th century to early 20th century aristocratic France, while reflecting on the loss of time and lack of meaning to the world. The novel had great influence on twentieth-century literature; some writers have sought to emulate it, others to parody it. In the centenary year of the novel's first volume, Edmund White pronounced À la recherche du temps perdu "the most respected novel of the twentieth century". A True Classic that Belongs on Every Bookshelf!
