WALNECK'S CLASSIC CYCLE TRADER, JUNE 2009

The novel 'Crimes of a Guilty Land' follows the Hart and Beauchamp families through some turbulent years of the nineteenth century. It opens in the summer of 1825 when young Roger Hart, while enjoying his first visit to the beach in Rhode Island, witnesses a tragedy. The events of that day will haunt him for the rest of his life. Many years later, just prior to the Civil War, Roger Hart becomes involved in a risky undertaking to begin to teach the children of slave families in Virginia. That experience leads him to Harpers Ferry and the disastrous John Brown raid on the US Armory in 1859. There he meets the Beauchamp family who became involved in the John Brown affair with tragic results. The Hart and Beauchamp families find themselves bound together with romance and violence as the Civil War devastates the town of Harpers Ferry and as family members find themselves caught up in the Petersburg Battle of the Crater. Both of the families also become involved with a freed slave family that includes a young boy named Brownie. Ten years after the war, Roger finds himself describing all of those events to a curious Brownie. Brownie is anxious to hear his family's story while Hart is determined to pass on to

the boy a sense of goodness and a respect for tolerance along with the need for an education. Hart succeeds, and Brownie grows to become a highly regarded teacher. The reader first meets Brownie as he looks back on his life. It is 1941 and America is at war again. But for Brownie, now a retired teacher in West Virginia, an old struggle is still being waged in this country as he witnesses the continued indignity and cruelty of segregation. A moment of violence causes him to reflect on his own life experience and he is drawn to write down his remembrances of his family's involvement in the struggles during the final years of slavery, the John Brown raid at Harpers Ferry, and then the Civil War and its aftermath. He reflects on how his family has experienced drama and tragedy as well as romance and humor during encounters with intolerance - including racial, religious and economic. Brownie recalls the last words of John Brown as he went to the executioner's gallows. Brown wrote on a slip of paper that "...the crimes of this guilty land will never be purged away but with blood." But after so much blood shed over so many years, Brownie is led to question how much progress has been made during his life time, and then on what a seventy five year old man might be able to contribute to changing things.

First published in 1979 as the "Moto-X Fox Guide to Preparing the Yamaha YZ and IT for Competition," this 64-page book was written and photographed by famed 1970's Cycle News editor, racer and motocross journalist Jim "Jimmy the Greek" Gianatsis. It covers the development and racing history of the Yamaha 2-stroke and 4-stroke motocross and enduro bikes from the DT models raced by the Don Jones family in the early 1970s, through to to the exotic YZ, OW and TT-500 machines raced by Hakan Andersson, Pierre Karsmakers and Bob "Hurricane" Hannah up to 1979. Included is race bike preparation information from famed Yamaha factory rider Bob Hannah, his mechanic Keith McCarty, the top privateer Moto-X Fox Racing Team, as well as privateer mechanic Bevo Forte. There is also a section on IT model enduro bike preparation by Yamaha motocross and ISDT rider Chris Carter. Included is "Riding with the Hurricane" an eight chapter racing instruction guide with photos that Jim produced with Bob Hannah that was originally printed in Cycle News as a weekly series in 1978. Preparing the Yamaha YZ and IT for Competition is a classic dirt bike technical, tuning and riding manual that has been out of print and unavailable for 30 years. It serves as very interesting reading and a great historical reference guide for dirt bike fans both young and old. Many of the bike preparation and riding tips are still relevant today. A must have for any dirt bike enthusiast or collector.

With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users.

Making Sense of the Numbers

This Story Paper Book is ideal for young children (approximately Kindergarten - third grade) who are learning how to write and properly proportion letters. It is also useful for older children who have delays with handwriting or have dysgraphia. Each story paper has a measured space at the top for a title, then a picture box for the child to draw an illustration and then five lines for the child to write their story. Each measured space consists of two lines (top and bottom) .65" apart and a dotted line in the center to guide the child as they write. Details: Size of the book: 8.5 x 11 inches No of pages: 150 Cover: Premium Glossy Finish

Caring for Your Scooter

"This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.

WALNECK'S CLASSIC CYCLE TRADER, AUGUST 2001

At nineteen, Ashley Fiolek is already the top female competitor in a tough men's sport: motocross, a form of off-road motorcycle racing that is one of the most competitive and dangerous extreme sports in the world. Since going pro in late 2007, Fiolek has taken gold at the X Games, won the American Women's Motocross Championship twice, and become the first woman in American motocross history to be signed to a factory team—the highest echelon of industry backing. But Fiolek's rise has not come without obstacles. Fiolek was born profoundly deaf, a

handicap that makes everyday life difficult—and competition on the track downright dangerous. Originally misdiagnosed as "mildly retarded," she was a painfully shy and introverted child—until her parents introduced her to the world of dirt bikes, which helped her escape the silence in her head and connect with others who shared her passion. She began racing at seven, and as her successes grew through hard work and no small number of broken bones, so did her confidence. Fiolek has never believed her disability should stand in the way of her dreams. Nor has she allowed her gender to limit her career—motocross historically has been a men's sport, but with the love and support of her dirt-obsessed family, including her "Grandpa Motorcycle," her little brother, Kicker, and her dogs, Turbo and Rocco, Ashley has emerged as one of the sport's most talked-about stars, changing the way the entire industry views women. Armed with her extraordinary talent, contagious grin, and deep faith in God, Fiolek continues to venture into unknown territory, relentlessly pushing herself—and women's motocross—to ever-greater heights. *Kicking Up Dirt* is a remarkable, inspiring tale of a young woman's courage and determination to succeed in the face of truly challenging obstacles.

Best in Show is a collection of photographs of well-

groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of *The Dogist: Photographic Encounters with 1,000 Dogs* by Elias Weiss Friedman, *Dogs* by Lewis Blackwell and Tim Flach, and *Underwater Dogs* by Seth Casteel

" I read on. And then it happens. On page 89. Mary is humiliated, and I know I have to step in. There she is, in an ill-fitting, wine-colored gown that doesn't do anything for her mousy complexion, gathering up her music, when I pass by, and spill my glass of punch right on her dress. I turn, and there is Kevin, dressed in a scarlet coat and all the rest of the uniform of a British Soldier, circa 1811. 'What are you doing here?' I ask. 'Well, this is the part I'm up to in the book.'" The smart middle child in a blue-collar family identifies with Mary, the middle child in Jane Austen's *Pride and Prejudice*. When Alice enters Mary's world and makes changes in both their lives, she learns that first impressions aren't always right.

Traction control? Engine management? Acres of run-off? You've got to be joking: motorcycle racing's age of superheroes, 1988-93, was the zenith of two-stroke Grand Prix racing, when macho colonials slugged it out on evil two-strokes capable of 200mph. Even Valentino Rossi acknowledges this period as a special moment in motorcycle racing history, for he grew up watching Kevin Schwantz, Wayne Rainey, Eddie Lawson, John Kocinski, Mick Doohan and Wayne Gardner on TV as they bumped fairings and burned rubber around ultra-fast, lethal racetracks.

Saga of the Swamp Thing Book One

Endpoint opens with a series of connected poems which were written on the occasions of Updike's recent birthdays and culminate in his confrontation with his final illness. They look back on the boy that Updike once was, on his family and little town and the

circumstances that fed his love of writing. Then there are 'Other Poems', ranging from fanciful musings about what it would be like to be a stolen Rembrandt painting to celebratory outpourings that capture the spontaneity and flux of life. Finally, there is a set of sonnets, some of which are inspired by exotic travels in distant lands, and some of which simply take pleasure in the idiosyncrasies of nature in Updike's own backyard. For John Updike, the writing of poetry was always a special joy, and this final collection is an eloquent and moving testament to the life of this extraordinary writer.

An Age of Superheroes

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by

misplaced loyalties, technical disasters, and brutal competition.

This textbook guides the reader towards various aspects of growth and international trade in a Diamond-type overlapping generations framework. Using the same model type throughout the book, timely topics such as growth with bubbles, debt reduction in rich countries and policies to mitigate climate change are explored . The first part starts from the “old” growth theory and bridges to the “new” growth theory (including R&D and human capital approaches). The second part presents an intertemporal equilibrium theory of inter and intra-sectoral trade and concludes by analyzing the debt mechanics inducing the huge imbalances among eurozone countries. The book is primarily addressed to graduate students wishing to proceed to the analytically more demanding journal literature.

Before WATCHMEN, Alan Moore made his debut in the U.S. comic book industry with the revitalization of the horror comic book THE SWAMP THING. His deconstruction of the classic monster stretched the creative boundaries of the medium and became one of the most spectacular series in comic book history. With modern-day issues explored against a backdrop of horror, SWAMP THING's stories became commentaries on environmental, political and social issues, unflinching in their relevance. SAGA OF THE SWAMP THING BOOK ONE collects issues #20-27 of

this seminal series including the never-before-reprinted SAGA OF THE SWAMP THING #20, where Moore takes over as writer and concludes the previous storyline. Book One begins with the story "The Anatomy Lesson," a haunting origin story that reshapes SWAMP THING mythology with terrifying revelations that begin a journey of discovery and adventure that will take him across the stars and beyond.

WALNECK'S CLASSIC CYCLE TRADER, MAY 1992

Here are the true stories of people who found their dream cars in the most unlikely places.

The Cobra in the Barn

This official history of the FIM Grand Prix motor cycle racing World Championship, since its formation in 1949, records the action from a sport that has seen massive changes during the last 50 years with Japanese manufacturers eclipsing their European rivals, purpose-built race circuits replacing true road courses and a reduction in the number of Grand Prix classes. In other respects it has enjoyed remarkable continuity, as motor cycle racing has remained the domain of the major manufacturers anxious to promote the awareness of their road machines. Contemporary Grand Prix designs are clearly descended from the bikes raced in the 1950s. This book traces the major trends and developments during the last 50 years and it profiles the legendary riders, teams and innovators that have dominated the sport during this period. Concluding the history is a comprehensive and detailed results section which provides an invaluable source of reference for any motor cycle enthusiast.
